UNION BANKSHARES REPORTS SECOND QUARTER RESULTS

Richmond, Va., July 18, 2018 - Union Bankshares Corporation (the “Company” or “Union”) (NASDAQ: UBSH) today reported net income of \$47.3 million and earnings per share of \$0.72 for its second quarter ended June 30, 2018. Net operating earnings⁽¹⁾ were \$53.9 million and operating earnings per share ⁽¹⁾ was \$0.82 for its second quarter ended June 30, 2018; these operating results exclude \$6.5 million in after-tax merger-related costs.

Net income was \$64.0 million and earnings per share was \$0.97 for the six months ended June 30, 2018. Net operating earnings⁽¹⁾ were \$92.7 million and operating earnings per share⁽¹⁾ were \$1.41 for the six months ended June 30, 2018; these operating results exclude \$28.8 million in after-tax merger-related costs.

“Union followed up on our strong first quarter with a number of accomplishments during the second quarter that align with our stated strategic priorities - positioning us for profitable growth and the delivery of top tier financial metrics, which we expect to achieve in the fourth quarter of 2018,” said John C. Asbury, President and CEO of Union Bankshares Corporation. *“This quarter’s accomplishments included successfully converting the core data systems for Xenith Bank, exiting the mortgage origination business, divesting the national scope marine finance business acquired from Xenith Bank, divesting a non-strategic third party consumer lending portfolio and continuing to build out the commercial banking teams across the franchise.*

Our second quarter actions demonstrate Union is executing on its strategic priorities with intensity and a sharp focus on our core business lines. We are especially pleased that our commercial banking build out is occurring at an accelerated pace and that we have achieved our long-term loan to deposit ratio target. Union has never been better positioned to achieve its profitability and growth objectives.”

Select highlights for the second quarter of 2018 include:

- Performance metrics linked quarter
 - Return on Average Assets (“ROA”) was 1.44% compared to 0.52% in the first quarter of 2018. Operating ROA ⁽¹⁾ increased to 1.63% compared to 1.21% in the first quarter of 2018.
 - Return on Average Equity (“ROE”) was 10.28% compared to 3.70% in the first quarter of 2018. Operating ROE ⁽¹⁾ was 11.69% compared to 8.64% in the first quarter of 2018.
 - Return on Average Tangible Common Equity (“ROTCE”) was 17.74% compared to 6.43% in the first quarter of 2018. Operating ROTCE ⁽¹⁾ increased to 20.19% compared to 15.03% in the first quarter of 2018.
 - Efficiency ratio declined to 57.2% compared to 82.2% in the first quarter of 2018 and the efficiency ratio (FTE) declined to 56.5% compared to 81.0% in the first quarter of 2018. Operating efficiency ratio⁽¹⁾ improved to 51.0% compared to 59.0% in the first quarter of 2018.
 - Notable activity during the second quarter
 - On May 23, 2018, the Company's wholly-owned bank subsidiary, Union Bank & Trust, announced that it had entered into a definitive agreement with a third party mortgage company to team together to offer residential mortgages. As a result of this arrangement, Union Bank & Trust began winding-down the operations of Union Mortgage Group, its wholly-owned subsidiary. In connection with this transaction, the Company recorded exit costs totaling approximately \$3.4 million, which includes goodwill impairment of approximately \$864,000. These costs and the Company's mortgage segment results are reported within discontinued operations results.
-

- On June 29, 2018, Union Bank & Trust entered into an agreement to sell substantially all of the assets and certain specific liabilities of its Shore Premier Finance division, consisting primarily of marine loans totaling approximately \$383.9 million, for a purchase price consisting of approximately \$375.0 million in cash and 1,250,000 shares of the purchasing company's common stock. The sale generated an after-tax gain of approximately \$16.5 million, net of transaction and other related costs.
- On June 29, 2018, Union Bank & Trust sold approximately \$206.3 million in consumer home improvement loans that had been originated through a third-party lending program. These loans were sold at par.
- The Company closed three branches during the second quarter of 2018 as part of conversion activities related to its acquisition of Xenith Bankshares, Inc. ("Xenith"). After further analyzing its branch footprint, the Company has decided to consolidate an additional seven branches, approximately 5% of the Company's branch network, during the third quarter of 2018. The upcoming branch closures resulted in after-tax branch closure costs of approximately \$474,000 that were recorded in the second quarter of 2018.
- On April 1, 2018, Union Bank & Trust completed its acquisition of Dixon, Hubard, Feinour, & Brown, Inc. ("DHFB"), a Roanoke, Virginia based investment advisory firm with approximately \$600 million in assets under management and advisement. DHFB operates as a subsidiary of Union Bank & Trust and from its offices in Roanoke, Virginia.

(1) For a reconciliation of the non-GAAP operating measures that exclude merger-related costs unrelated to the Company's normal operations, see Alternative Performance Measures (non-GAAP) section of the Key Financial Results.

NET INTEREST INCOME

For the second quarter of 2018, net interest income was \$108.2 million, an increase of \$4.7 million from the first quarter of 2018. Tax-equivalent net interest income was \$110.2 million in the second quarter of 2018, an increase of \$4.9 million from the first quarter of 2018. The increases in both net interest income and tax-equivalent net interest income were primarily driven by higher earning asset balances and higher yields on those balances. The second quarter net interest margin increased 6 basis points to 3.72% from 3.66% in the previous quarter, while the tax-equivalent net interest margin increased 7 basis points to 3.79% from 3.72% during the same periods. The increases in the net interest margin and tax-equivalent net interest margin were principally due to an approximate 16 basis point increase in the yield on earning assets, partially offset by an approximate 9 basis point increase in the cost of funds.

The Company's tax-equivalent net interest margin includes the impact of acquisition accounting fair value adjustments. During the second quarter of 2018, net accretion related to acquisition accounting increased \$325,000 from the prior quarter to \$5.9 million for the quarter ended June 30, 2018. The first and second quarters of 2018 and the remaining estimated net accretion impact are reflected in the following table (dollars in thousands):

	Loan Accretion	Deposit Accretion	Borrowings Amortization	Total
For the quarter ended March 31, 2018	\$ 4,846	\$ 832	\$ (98)	\$ 5,580

ASSET QUALITY/LOAN LOSS PROVISION

Overview

During the second quarter of 2018, the Company experienced declines in nonperforming asset (“NPA”) balances from the prior quarter, primarily related to sales of other real estate owned (“OREO”). Past due loan levels as a percentage of total loans held for investment at June 30, 2018 were consistent with past due loan levels at March 31, 2018 and June 30, 2017. Charge-off levels increased from the first quarter of 2018 and were primarily related to the consumer loan portfolio, while the provision for loan losses declined from the first quarter of 2018.

All nonaccrual and past due loan metrics discussed below exclude purchased credit impaired (“PCI”) loans totaling \$101.5 million (net of fair value mark of \$23.1 million).

Nonperforming Assets

At June 30, 2018, NPAs totaled \$33.7 million, a decrease of \$1.6 million, or 4.5%, from March 31, 2018 and a decline of \$399,000, or 1.2%, from June 30, 2017. In addition, NPAs as a percentage of total outstanding loans at June 30, 2018 was 0.36%, consistent with March 31, 2018 and a decline of 14 basis points from 0.50% at June 30, 2017. As the Company's NPAs have been at historic lows over the last several quarters, certain changes from quarter to quarter might stand out in comparison to one another but have no significant impact on the Company's overall asset quality position.

The following table shows a summary of nonperforming asset balances at the quarter ended (dollars in thousands):

	<u>June 30, 2018</u>	<u>March 31, 2018</u>	<u>December 31, 2017</u>	<u>September 30, 2017</u>	<u>June 30, 2017</u>

Past Due Loans

Past due loans still accruing interest totaled \$38.2 million, or 0.41% of total loans, at June 30, 2018 compared to \$41.6 million, or 0.42% of total loans, at March 31, 2018 and \$27.4 million, or 0.40% of total loans, at June 30, 2017. Of the total past due loans still accruing interest, \$6.9 million, or 0.07% of total loans, were loans past due 90 days or more at June 30, 2018, compared to \$2.6 million, or 0.03% of total loans, at March 31, 2018 and \$3.6 million, or 0.05% of total loans, at June 30, 2017.

Net Charge-offs

For the second quarter of 2018, net charge-offs were \$1.8 million, or 0.07% of total average loans on an annualized basis, compared to \$1.1 million, or 0.05%, for the prior quarter and \$2.5 million, or 0.15%, for the same quarter last year. Of the net charge-offs in the second quarter of 2018, the majority were related to consumer loans.

Provision for Loan Losses

The provision for loan losses for the second quarter of 2018 was \$2.7 million, a decrease of \$864,000 compared to the previous quarter and an increase of \$349,000 compared to the same quarter in 2017. The decrease in provision from the first quarter of 2018 was primarily driven by lower levels of loan growth in the current quarter.

Allowance for Loan Losses ("ALL")

The ALL increased \$641,000 from March 31, 2018 to \$41.3 million at June 30, 2018 primarily due to organic loan growth during the quarter. The ALL as a percentage of the total loan portfolio was 0.44% at June 30, 2018, 0.41% at March 31, 2018, and 0.56% at June 30, 2017. The quarter-over-quarter increase in the allowance ratio was primarily due to the sale of loans during the second quarter of 2018, while the year-over-year decline in the allowance ratio was primarily attributable to the acquisition of Xenith. In acquisition accounting, there is no carryover of previously established allowance for loan losses.

The ratio of the ALL to nonaccrual loans was 160.8% at June 30, 2018, compared to 161.6% at March 31, 2018 and 155.5% at June 30, 2017. The current level of the allowance for loan losses reflects specific reserves related to nonperforming loans, current risk ratings on loans, net charge-off activity, loan growth, delinquency trends, and other credit risk factors that the Company considers important in assessing the adequacy of the allowance for loan losses.

NONINTEREST INCOME

Noninterest income increased \$20.3 million to \$40.6 million for the quarter ended June 30, 2018 from \$20.3 million in the prior quarter, primarily driven by the net gain on sale of the Shore Premier Finance division of \$20.9 million. During the first quarter of 2018, noninterest income included a gain of \$1.4 million related to the sale of the Company's ownership interest in a payments-related company. Excluding these gains from their respective quarters, noninterest income increased \$847,000, or 4.5%, for the quarter ended June 30, 2018 when compared to the prior quarter. The increase in customer-related fee income of \$1.6 million was primarily due to the acquisition of DHFB as well as higher overdraft fees and debit card interchange fees. Partially offsetting this increase, the Company experienced losses on the sales of securities in the second quarter of 2018 compared to gains in the first quarter of 2018.

NONINTEREST EXPENSE

Noninterest expense decreased \$16.6 million to \$85.1 million for the quarter ended June 30, 2018 from \$101.7 million in the prior quarter. Excluding merger-related costs of \$8.3 million and \$27.7 million in the second and first quarters of 2018, respectively, operating noninterest expense increased \$2.8 million, or 3.8%, to \$76.9 million when compared to the first quarter of 2018. The increase in operating noninterest expense was primarily related to increased marketing expenses of \$1.9 million associated with the launch of the Union Bank & Trust brand in Xenith's footprint as well as higher levels of debit card rewards expenses. In addition, operating noninterest expense in the second quarter of 2018 included approximately \$770,000 in expenses for DHFB and branch closure costs of approximately \$600,000 related to the decision to consolidate seven branches in the third quarter of 2018.

INCOME TAXES

On December 22, 2017, the Tax Cuts and Jobs Act (the "Tax Act") was signed into law. Among other things, the Tax Act reduced the corporate tax rate to 21% from the prior maximum rate of 35%, effective for tax years including or

commencing January 1, 2018. As a result of the reduction of the corporate tax rate to 21%, companies are required to revalue their deferred tax assets and liabilities as of the date of enactment, with resulting tax effects accounted for in the fourth quarter of 2017. The Company continues to evaluate the impact on its 2017 tax expense of the revaluation required by the lower corporate tax rate implemented by the Tax Act, which management has estimated to fall between \$5.0 million and \$8.0 million. During the fourth quarter of 2017, the Company recorded \$6.3 million in additional tax expense based on the Company's preliminary analysis of the impact of the Tax Act. The Company's preliminary estimate of the impact of the Tax Act is based on currently available information and interpretation of its provisions. The actual results may differ from the current estimate due to, among other things, further guidance that may be issued by U.S. tax authorities or regulatory bodies and/or changes in interpretations and assumptions that the Company has preliminarily made. The Company's evaluation of the impact of the Tax Act is subject to refinement for up to one year after enactment. No additional adjustments related to the Tax Act were recorded in the second quarter of 2018.

The effective tax rate for the three months ended June 30, 2018 was 19.0% compared to 10.3% for the three months ended March 31, 2018. The increase in the effective tax rate was primarily due to tax benefits related to stock compensation of approximately \$1.2 million recorded during the first quarter of 2018 in accordance with ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting" as well as tax-exempt income being a lower component of pre-tax income in the second quarter of 2018 compared to the first quarter of 2018.

BALANCE SHEET

At June 30, 2018, total assets were \$13.1 billion, a decrease of \$83.2 million from March 31, 2018, a result of the sale of the Shore Premier loans and certain third party lending loans at the end of the quarter.

At June 30, 2018, loans held for investment (net of deferred fees and costs) were \$9.3 billion, a decrease of \$515.5 million from March 31, 2018, while average loans increased \$128.9 million, or 5.3% (annualized), from the prior quarter. Adjusted for the sale of the Shore Premier loans and certain third party lending program loans, loans held for investment grew \$66.7 million, or 2.9% (annualized), from March 31, 2018.

At June 30, 2018, total deposits were \$9.8 billion, an increase of \$119.3 million, or 4.9% (annualized), from March 31, 2018, while average deposits increased \$181.5 million, or 7.7% (annualized), from the prior quarter.

The following table shows the Company's regulatory capital ratios at the quarters ended:

	June 30, 2018	March 31, 2018	June 30, 2017
Common equity Tier 1 capital ratio ⁽¹⁾	9.74%	9.03%	9.39%
Tier 1 capital ratio ⁽¹⁾	10.95%	10.19%	10.57%
Total capital ratio ⁽¹⁾	12.81%	11.97%	13.00%
Leverage ratio (Tier 1 capital to average assets) ⁽¹⁾	9.46%	9.32%	9.61%

FORWARD-LOOKING STATEMENTS

Certain statements in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements that include projections, predictions, expectations, or beliefs about future events or results or otherwise are not statements of historical fact, are based on certain assumptions as of the time they are made, and are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Such statements are often characterized by the use of qualified words (and their derivatives) such as "expect," "believe," "estimate," "plan," "project," "anticipate," "intend," "will," "may," "view," "opportunity," "potential," or words of similar meaning or other statements concerning opinions or judgment of the Company and its management about future events. Although the Company believes that its expectations with respect to forward-looking statements are based upon reasonable assumptions within the bounds of its existing knowledge of its business and operations, there can be no assurance that actual results, performance, or achievements of the Company will not differ materially from any projected future results, performance, or achievements expressed or implied by such forward-looking statements. Actual future results and trends may differ materially from historical results or those anticipated depending on a variety of factors, including, but not limited to, the effects of or changes in:

- the possibility that any of the anticipated benefits of the Merger with Xenith will not be realized or will not be realized within the expected time period, the expected revenue synergies and cost savings from the Merger may not be fully realized or realized within the expected time frame, revenues following the Merger may be lower than expected, or customer and employee relationships and business operations may be disrupted by the Merger,
 - changes in interest rates,
 - general economic and financial market conditions,
 - the Company's ability to manage its growth or implement its growth strategy,
 - the incremental cost and/or decreased revenues associated with exceeding \$10 billion in assets,
 - levels of unemployment in Union Bank & Trust's lending area,
 - real estate values in Union Bank & Trust's lending area,
 - an insufficient allowance for loan losses,
 - the quality or composition of the loan or investment portfolios,
 - concentrations of loans secured by real estate, particularly commercial real estate,
 - the effectiveness of the Company's credit processes and management of the Company's credit risk,
 - demand for loan products and financial services in the Company's market area,
 - the Company's ability to compete in the market for financial services,
 - technological risks and developments, and cyber threats, attacks, or events,
 - performance by the Company's counterparties or vendors,
 - deposit flows,
 - the availability of financing and the terms thereof,
 - the level of prepayments on loans and mortgage-backed securities,
-

- legislative or regulatory changes and requirements,
- the impact of the Tax Act, including, but not limited to, the effect of the lower corporate tax rate, including on the valuation of the Company's tax assets and liabilities,
- any future refinements to the Company's preliminary analysis of the impact of the Tax Act on the Company,
- changes in the effect of the Tax Act due to issuance of interpretive regulatory guidance or enactment of corrective or supplement legislation,
- monetary and fiscal policies of the U.S. government including policies of the U.S. Department of the Treasury and the Board of Governors of the Federal Reserve System, and
- accounting principles and guidelines.

More information on risk factors that could affect the Company's forward-looking statements is available on the Company's website, <http://investors.bankatunion.com> or the Company's Annual Report on Form 10-K for the year ended December 31, 2017 and other reports filed with the Securities and Exchange Commission. (1) Net interest income (FTE), which is used in computing net interest margin (FTE) and efficiency ratio (FTE), provides valuable additional insight into the net interest margin and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.

(2) Tangible common equity is used in the calculation of certain profitability, capital, and per share ratios. The Company believes tangible common equity and the related ratios are meaningful measures of capital adequacy because they provide a meaningful base for period-to-period and company-to-company comparisons, which the Company believes will assist investors in assessing the capital of the Company and its ability to absorb potential losses.

(3) Operating measures exclude merger-related costs unrelated to the Company's normal operations. The Company believes these measures are useful to investors as they exclude certain costs resulting from acquisition activity and allow investors to more clearly see the combined economic results of the organization's operations.

(4) All ratios at June 30, 2018 are estimates and subject to change pending the Company's filing of its FR Y9-C. All other periods are presented as filed.
