### UNION BANKSHARES REPORTS THIRD QUARTER RESULTS

Richmond, Va., October 17, 2018 - Union Bankshares Corporation (the “Company” or “Union”) (Nasdaq: UBSH) today reported net income of \$38.2 million and earnings per share of \$0.58 for its third quarter ended September 30, 2018. Net operating earnings<sup>(1)</sup> were \$39.3 million and operating earnings per share <sup>(1)</sup> was \$0.60 for its third quarter ended September 30, 2018; these operating results exclude \$1.1 million in after-tax merger-related costs but include losses from discontinued operations of \$565,000.

Net income was \$102.2 million and earnings per share was \$1.55 for the nine months ended September 30, 2018. Net operating earnings<sup>(1)</sup> were \$132.1 million and operating earnings per share<sup>(1)</sup> was \$2.01 for the nine months ended September 30, 2018; these operating results exclude \$29.9 million in after-tax merger-related costs but include losses from discontinued operations of \$3.0 million.

*“Union made further progress on our stated priorities during the third quarter and we remain on track to deliver our top tier financial performance metrics in the fourth quarter of 2018,”* said John C. Asbury, President and CEO of Union Bankshares Corporation. *“Loan growth increased in each month of the quarter as we are beginning to see the impact of our commercial and industrial banking efforts on the commercial loan portfolio. Our commercial and industrial banking buildout is largely complete and our team is starting to gain traction in the market. This bodes well for the fourth quarter and more importantly, for 2019 and beyond.”*

*“After the quarter closed, we announced our agreement to acquire Access National Corporation, which is nearly a perfect fit with our previously stated M&A strategic and financial objectives. We’re pleased with the enthusiasm about Access becoming a part of Union which substantially completes our Virginia franchise and irrefutably positions Union as Virginia’s bank. While it has been less than two weeks from the announcement, we have already stood up our integration team and work has begun to ensure a smooth transition. Having just completed the Xenith integration, this is a process we know well. We will share more about the implications of this powerful addition to our targeted financial metrics and business strategy at our investor day scheduled in New York on November 14.”*

On October 5, 2018, the Company announced it has entered into a definitive merger agreement to acquire Access National Corporation (“Access”) in an all-stock transaction (the “Pending Merger”) that is expected to close in the first quarter of 2019.

## NET INTEREST INCOME

For the third quarter of 2018, net interest income was \$106.0 million, a decrease of \$2.2 million from the second quarter of 2018. Net interest income (FTE)(2) was \$108.0 million in the third quarter of 2018, a decrease of \$2.2 million from the second quarter of 2018. The decreases in both net interest income and net interest income (FTE) were primarily driven by lower acquisition accounting accretion during the three months ended September 30, 2018 compared to the three months ended June 30, 2018. The third quarter net interest margin decreased 3 basis points to 3.69% from 3.72% in the previous quarter, while the net interest margin (FTE)(2) decreased 3 basis points to 3.76% from 3.79% during the same periods. The decreases in the net interest margin and net interest margin (FTE) were principally due to a 6 basis point increase in the cost of funds, partially offset by a 3 basis point increase in the yield on earnings assets, which was lower by 6 basis points due to the reduced level of earning asset accretion income recorded during the third quarter of 2018 compared to the prior quarter.

The Company's net interest margin (FTE) includes the impact of acquisition accounting fair value adjustments. During the third quarter of 2018, net accretion related to acquisition accounting decreased \$2.0 million from the prior quarter to \$3.9 million for the quarter ended September 30, 2018. The second and third quarters of 2018 and the remaining estimated net accretion impact are reflected in the following table (dollars in thousands):

	Loan Accretion	Deposit Accretion	Borrowings Amortization	Total
For the quarter ended June 30, 2018	\$ 5,324	\$ 685	\$ (104)	\$ 5,905
For the quarter ended September 30, 2018	3,496	592	(143)	3,945
For the remaining three months of 2018 (estimated)	2,401	445	(161)	2,685
For the years ending (estimated):				
2019	8,481	1,170	(660)	8,991
2020	6,880	284	(734)	6,430
2021	5,520	108	(805)	4,823

## ASSET QUALITY/LOAN LOSS PROVISION

### Overview

During the third quarter of 2018, the Company experienced increases in nonperforming asset (“NPA”) balances from the prior quarter, primarily due to nonaccrual additions related to one credit relationship composed of construction loans. Past due loan levels as a percentage of total loans held for investment at September 30, 2018 were higher than past due loan levels at June 30, 2018 and were down slightly from September 30, 2017. Charge-off levels increased from the second quarter of 2018 and were primarily related to the consumer loan portfolio; as a result, the provision for loan losses increased from the second quarter of 2018.

All nonaccrual and past due loan metrics discussed below exclude purchased credit impaired (“PCI”) loans totaling \$94.7 million (net of fair value mark of \$24.3 million) at September 30, 2018.

### Nonperforming Assets

At September 30, 2018, NPAs totaled \$34.9 million, an increase of \$2.0 million, or 6.1%, from June 30, 2018 and an increase of \$8.3 million, or 31.4%, from September 30, 2017. NPAs as a percentage of total outstanding loans at September 30, 2018 was 0.37%, an increase of 2 basis points from 0.35% at June 30, 2018 and a decline of 2 basis points from 0.39% at September 30, 2017. As the Company’s NPAs have been at or near historic lows over the last several quarters, certain changes from quarter to quarter might stand out in comparison to one another but do not have a significant impact on the Company’s overall asset quality position.

The following table shows a summary of nonperforming asset balances at the quarter ended (dollars in thousands):

	<b>September 30, 2018</b>	<b>June 30, 2018</b>	<b>March 31, 2018</b>	<b>December 31, 2017</b>	<b>September 30, 2017</b>
Nonaccrual loans	\$ 28,110	\$ 25,662	\$ 25,138	\$ 21,743	\$ 20,122
Foreclosed properties	6,800	7,241	8,079	5,253	6,449

Ending Balance	<u>\$ 28,110</u>	<u>\$ 25,662</u>	<u>\$ 25,138</u>	<u>\$ 21,743</u>	<u>\$ 20,122</u>

Of the nonaccrual additions in the third quarter of 2018, the majority related to one credit relationship, which consisted of construction loans.

The following table shows the activity in foreclosed properties for the quarter ended (dollars in thousands):

	<b>September 30, 2018</b>	<b>June 30, 2018</b>	<b>March 31, 2018</b>	<b>December 31, 2017</b>	<b>September 30, 2017</b>

(1) Includes subsequent measurement period adjustments.

#### *Past Due Loans*

Past due loans still accruing interest totaled \$46.6 million, or 0.49% of total loans, at September 30, 2018 compared to \$38.2 million, or 0.41% of total loans, at June 30, 2018 and \$34.4 million, or 0.50% of total loans, at September 30, 2017. Of the total past due loans still accruing interest, \$9.5 million, or 0.10% of total loans, were loans past due 90 days or more at September 30, 2018, compared to \$6.9 million, or 0.07% of total loans, at June 30, 2018 and \$4.5 million, or 0.07% of total loans, at September 30, 2017.

#### *Net Charge-offs*

For the third quarter of 2018, net charge-offs were \$3.2 million, or 0.13% of total average loans on an annualized basis, compared to \$1.8 million, or 0.07%, for the prior quarter and \$4.1 million, or 0.24%, for the same quarter last year. The majority of net charge-offs in the third quarter of 2018 were related to consumer loans.

#### *Provision for Loan Losses*

The provision for loan losses for the third quarter of 2018 was \$3.1 million, an increase of \$440,000 compared to the previous quarter and an increase of \$44,000 compared to the same quarter in 2017. The increase in provision for loan losses from the second quarter of 2018 was primarily driven by higher levels of net charge-offs in the third quarter of 2018.

#### *Allowance for Loan Losses ("ALL")*

The ALL at September 30, 2018 was consistent with the prior quarter at \$41.3 million. The ALL as a percentage of the total loan portfolio was 0.44% at both September 30, 2018 and June 30, 2018 and was 0.54% at September 30, 2017. The year-over-year decline in the allowance ratio was primarily attributable to the acquisition of Xenith. In acquisition accounting, there is no carryover of previously established allowance for loan losses.

The ratio of the ALL to nonaccrual loans was 146.9% at September 30, 2018, compared to 160.8% at June 30, 2018 and 184.7% at September 30, 2017. The current level of the allowance for loan losses reflects specific reserves related to nonperforming loans, current risk ratings on loans, net charge-off activity, loan growth, delinquency trends, and other credit risk factors that the Company considers important in assessing the adequacy of the allowance for loan losses.

## **NONINTEREST INCOME**

Noninterest income decreased \$20.7 million to \$19.9 million for the quarter ended September 30, 2018 from \$40.6 million in the prior quarter, primarily driven by the net gain on sale of the Shore Premier Finance division recognized during the second quarter of 2018. The initial estimated gain recorded in the second quarter of 2018 was \$20.9 million, which was subsequently reduced by \$933,000 in the third quarter based on updated information obtained and wind-down costs incurred. Excluding this gain and its subsequent adjustment from their respective quarters, noninterest income increased \$1.1 million, or 5.7%, for the quarter ended September 30, 2018 when compared to the prior quarter. Customer-related fee income increased \$1.1 million, primarily due to the acquisition of Outfitter Advisors, Inc. as well as higher overdraft, letter of credit, and debit card interchange fees.

## NONINTEREST EXPENSE

Noninterest expense decreased \$8.8 million to \$76.3 million for the quarter ended September 30, 2018 from \$85.1 million in the prior quarter. Excluding merger-related costs of \$1.4 million and \$8.3 million in the third and second quarters of 2018, respectively, operating noninterest expense<sup>(3)</sup> decreased \$1.9 million, or 2.5%, to \$74.9 million when compared to the second quarter of 2018. The decrease in operating noninterest expense included a decline in salaries and benefits of \$1.5 million, primarily due to planned synergies arising from the core system conversion from the Xenith acquisition that occurred in the second quarter, partially offset by increased incentive plan expenses of \$408,000 recorded in the third quarter of 2018. Other real estate owned (“OREO”) and credit-related expenses declined \$670,000 related to higher gains on sales of property and lower valuation adjustments in the third quarter compared to the second quarter of 2018. Additionally, FDIC premiums and other insurance costs declined \$519,000 compared to the second quarter of 2018. Included in operating noninterest expense were branch closure costs of approximately \$475,000 related to the consolidation of seven branches in the third quarter of 2018, \$714,000 in costs related to executive management changes during the quarter, as well as operating losses of \$463,000 related to a community development investment fund.

*(3) For a reconciliation of this non-GAAP financial measure, see Alternative Performance Measures (non-GAAP) section of the Key Financial Results.*

## INCOME TAXES

The Tax Cuts and Jobs Act of 2017 (the “Tax Act”) was signed into law in December 2017. The Company's preliminary estimate of the impact of the Tax Act is based on currently available information and interpretation of its provisions. The actual results may differ from the current estimate due to, among other things, further guidance that may be issued by U.S. tax authorities or regulatory bodies and/or changes in interpretations and assumptions that the Company has made on a preliminary basis. The Company's evaluation of the impact of the Tax Act is subject to refinement for up to one year after enactment. No additional adjustments related to the Tax Act were recorded in the third quarter of 2018.

The effective tax rate for the three months ended September 30, 2018 was 15.9% compared to 19.0% for the three months ended June 30, 2018. The decrease in the effective tax rate was primarily due to tax-exempt income being a higher component of pre-tax income in the third quarter of 2018 compared to the second quarter of 2018.

## BALANCE SHEET

At September 30, 2018, total assets were \$13.4 billion, an increase of \$305.6 million from June 30, 2018, primarily a result of increases in the investment securities portfolio and loan growth during the third quarter of 2018, partially offset by lower cash and cash equivalent balances.

At September 30, 2018, total investments were \$2.3 billion, an increase of \$519.6 million from June 30, 2018, primarily the result of reinvesting the proceeds received at the end of the second quarter from the sale of Shore Premier Finance loans and certain third party lending loans into the investment securities portfolio during the third quarter of 2018.

At September 30, 2018, loans held for investment (net of deferred fees and costs) were \$9.4 billion, an increase of \$121.3 million, or 5.2% (annualized), from June 30, 2018, while average loans decreased \$511.9 million from the prior quarter. Adjusted for the sale of the Shore Premier Finance loans and certain third party lending programs loans in the second quarter of 2018, average loans increased \$66.8 million, or 2.9% (annualized), during the third quarter of 2018 compared to the prior quarter.

At September 30, 2018, total deposits were \$9.8 billion, an increase of \$37.4 million, or 1.5% (annualized), from June 30, 2018, while average deposits increased \$158.3 million, or 6.6% (annualized), from the prior quarter.

(1) These are non-GAAP financial measures. Net interest income (FTE), which is used in computing net interest margin (FTE) and efficiency ratio (FTE), provides valuable additional insight into the net interest margin and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.

(2) These are non-GAAP financial measures. Tangible common equity is used in the calculation of certain profitability, capital, and per share ratios. The Company believes tangible common equity and the related ratios are meaningful measures of capital adequacy because they provide a meaningful base for period-to-period and company-to-company comparisons, which the Company believes will assist investors in assessing the capital of the Company and its ability to absorb potential losses.

(3) These are non-GAAP financial measures. Operating measures exclude merger-related costs unrelated to the Company's normal operations. The Company believes these measures are useful to investors as they exclude certain costs resulting from acquisition activity and allow investors to more clearly see the combined economic results of the organization's operations.

(4) All ratios at September 30, 2018 are estimates and subject to change pending the Company's filing of its FR Y9-C. All other periods are presented as filed.
