## ET INTEREST INCOME

 million from the third quarter of 2019. The decreases in both net interest income and net interest income (FTE) were primarily driven by lower earning asset yields during the three months ended December 31, 2019 compare
to the three months ended September 30, 2019. The fourth quarter net interest margin decreased 9 basis points to $3.48 \%$ from $3.57 \%$ in the previous quarter, while the net interest margin (FTE) ${ }^{(1)}$ decreased 9 basis points to $3.55 \%$ from $3.64 \%$ during the same periods. The decreases in the net interest margin and net interest margin (FTE) were principally due to an 18 basis point decrease in the yield on earning assets, partially offset by a 9 basis point decrease in the cost of funds.

The Company's net interest margin (FTE) includes the impact of acquisition accounting fair value adjustments. During the fourth quarter of 2019, net accretion related to acquisition accounting increased $\$ 1.5$ million from the rior quarter to $\$ 6.6$ million the quarter ended December 31, 2019. ## SSET QUALITY/LOAN LOSS PROVISION

Serview
During the fourth quarter of 2019, the Company experienced decreases in nonperforming assets ("NPA") primarily due to nonaccrual customer payments and sales of foreclosed properties. Past due loan levels as a percentag f total loans held for investment at December 31, 2019 were higher than past due loan levels at September 30, 2019 and down from past due loan levels at December 31, 2018. The increase in past due loans from the prio decreased from the third quarter of 2019 and were primarily related to the third party consumer loan portfolio; as a result, the provision for loan losses decreased from the third quarter of 2019

All nonaccrual and past due loan metrics discussed below exclude purchased credit impaired ("PCl") loans totaling $\$ 86.7$ million (net of fair value mark of $\$ 18.2$ million) at December $31,2019$.
(1) For a reconciliation of this non-GAAP financial measure, see Alternative Performance Measures (non-GAAP) section of the Key Financial Results.
(2) Estimated loan accretion presented is prior to the adoption of Accounting Standard Codification (ASC) 326 - Financial Instruments - Credit Losses (CECL)

Past Due Loans
ast due loans still accruing interest totaled $\$ 76.6$ million or $0.61 \%$ of total loans held for investment at December 31, 2019 compared to $\$ 55.1$ million or $0.45 \%$ of total loans held for investment at September 30 , 2019, and $\$ 61.9$ million or $0.64 \%$ of total loans held for investment at December 31,2018 . Of the total past due loans still accruing interest $\$ 13.4$ million or $0.1 \%$ of total loans held for investment were loans past due 90 days or more
at December 31,2019 , compared to $\$ 12.0$ million or $0.10 \%$ of total loans held for investment at September 30,2019 , and $\$ 8.9$ million or $0.09 \%$ of total loans held for investment at December 31,2018 . The increase in past due oans was primarily driven by a seasonal increase related to residential 1-4 family - consumer loans that were 30 days past due as of year-end of which the majority subsequently became current.

Net Charge-offs
For the fourth quarter of 2019 , net charge-offs were $\$ 4.6$ million or $0.15 \%$ of total average loans on an annualized basis, compared to $\$ 7.7$ million or $0.25 \%$ for the prior quarter, and $\$ 5.0$ million or $0.21 \%$ for the fourth quarter last year. The majority of net charge-offs in the fourth quarter of 2019 were related to consumer loans. For the year ended December 31, 2019, net charge-offs were $\$ 20.9$ million or $0.17 \%$ of total average loans compared to
11.1 million or $0.12 \%$, for the year ended 2018 .

Allowance for Loan Losses ("ALL")
The ALL decreased $\$ 1.5$ million from September 30, 2019 to $\$ 42.3$ million at December 31, 2019, primarily due to lower incurred losses embedded in the third party consumer portfolio as it continues to pay down and an
improved economic environment, partially offset by loan growth during the quarter. The ALL as a percentage of the total loan portfolio was $0.34 \%$ at December $31,2019,0.36 \%$ at September 30,2019 , and $0.42 \%$ at December 31, 2018.

The ratio of the ALL to nonaccrual loans was $149.8 \%$ at December 31, 2019, compared to $145.9 \%$ at September 30, 2019 and $152.3 \%$ at December 31, 2018. The current level of the allowance for loan losses reflects specific reserves related to nonperforming loans, current risk ratings on loans, net charge-off activity, loan growth, delinquency trends, and other credit risk factors that the Company considers important in assessing the adequacy of the allowance for loan losses.

## NONINTEREST INCOME

 million in life insurance proceeds received during the third quarter related to a Xenith-acquired loan that had been charged off prior to the Company's acquisition of Xenith and a gain on sale of investment securities of
pproximately $\$ 7.1$ million recorded during the third quarter. In addition, the fourth quarter noninterest income included a decline of approximately $\$ 2.0$ million in loan related interest rate swap income due to lower
ransaction volumes and seasonally lower mortgage banking revenue of $\$ 685,000$.

## NONINTEREST EXPENSE

Noninterest expense decreased $\$ 17.4$ million for the quarter ended December 31, 2019 from $\$ 111.7$ million in the prior quarter. Excluding merger-related costs, amortization of intangible assets, and rebranding-related costs, operating noninterest expense ${ }^{(1)}$ decreased $\$ 15.4$ million or $14.9 \%$, in the fourth quarter of 2019 . The decrease in operating noninterest expense was primarily due to the recognition of approximately $\$ 16.4$ million loss on debt extinguishment in the third quarter resulting from the repayment of approximately $\$ 140.0$ million in FHLB advances and the termination of the related cash flow hedges. Salaries and benefits declined by $\$ 2.5$ million, primarily
due to lower incentive compensation expense and higher deferred costs related to new loan originations. These decreases were partially offset by increases in marketing expense of approximately $\$ 1.1$ million, professional fees of $\$ 955,000$ related to higher consulting costs, FDIC and other insurance expenses of $\$ 873,000$ primarily due to a lower FDIC small bank assessment credit earned in the fourth quarter, and OREO and credit-related expense of approximately $\$ 542,000$ due to OREO valuation adjustments driven by updated appraisals received during the quarter
