FORWARD-LOOKING STATEMENTS

The foregoing presentation may contain statements about Atlantic Union Bankshares Corporation ("AUB" or the "Company") that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are not historical facts and include expressions about management's confidence and strategies and management's expectations about the Company's business, new and existing programs and products, acquisitions, relationships, opportunities, taxation, technology, market conditions and economic expectations. These statements may be identified by forward-looking terminology such as "intend," "should," "expect," "believe," "view," "opportunity," "allow," "continue," "reflects," "would," "could," "typically," "usually," "anticipate," "may," "estimate," "outlook," "project" or similar statements or variations of such terms. Such forward-looking statements involve certain risks and uncertainties. Actual results may differ materially from such forward-looking statements depending on a variety of factors, including, but not limited to, the effects of or changes in: market interest rates and their related impacts on macroeconomic conditions, customer and client behavior, the Company's funding costs and the Company's loan and securities portfolios; economic conditions, including inflation and recessionary conditions and their related impacts on economic growth and customer and client behavior; U.S. and global trade policies and tensions, including changes in, or the imposition of, tariffs and/or trade barriers and the economic impacts, volatility and uncertainty resulting therefrom, and geopolitical instability; volatility in the financial services sector, including failures or rumors of failures of other depository institutions, along with actions taken by governmental agencies to address such turmoil, and the effects on the ability of depository institutions, including the Company, to attract and retain depositors and to borrow or raise capital; legislative or regulatory changes and requirements, including changes in federal, state or local tax laws and changes impacting the rulemaking, supervision, examination and enforcement priorities of the federal banking agencies; the sufficiency of liquidity and changes in the Company's capital position; general economic and financial market conditions, in the United States generally and particularly in the markets in which the Company operates and which the Company's loans are concentrated, including the effects of declines in real estate values, an increase in unemployment levels, U.S. fiscal debt, budget, and tax matters, U.S. government shutdowns, and slowdowns in economic growth; the possibility that the anticipated benefits of the Company's acquisition activity, including the Company's acquisition of Sandy Spring, including anticipated cost savings and strategic gains, are not realized when expected or at all, including as a result of the strength of the economy, competitive factors in the areas where the Company does business, or as a result of other unexpected factors or events; potential adverse reactions or changes to business or employee relationships, including those resulting from the Company's acquisition of Sandy Spring; the Company's ability to identify, recruit and retain key employees; monetary, fiscal and regulatory policies of the U.S. government, including policies of the U.S. Department of the Treasury and the Federal Reserve; the quality or composition of the Company's loan or investment portfolios and changes in these portfolios; demand for loan products and financial services in the Company's market areas; the Company's ability to manage the Company's growth or implement the Company's growth strategy; the effectiveness of expense reduction plans; the introduction of new lines of business or new products and services; real estate values in the Company's lending area; changes in accounting principles, standards, rules, and interpretations, and the related impact on the Company's financial statements; an insufficient ACL or volatility in the ACL resulting from the Current Expected Credit Losses ("CECL") methodology, either alone or as that may be affected by changing economic conditions, credit concentrations, inflation, changing interest rates, or other factors; concentrations of loans secured by real estate, particularly CRE; the effectiveness of the Company's credit processes and management of the Company's credit risk; the Company's ability to compete in the market for financial services and increased competition from fintech companies; technological risks and developments, and cyber threats, attacks, or events; emerging issues related to the development and use of artificial intelligence that could give rise to legal or regulatory action or increase the risk of a cybersecurity attack or the probability that such an attack would be successful; operational, technological, cultural, regulatory, legal, credit, and other risks associated with the exploration, consummation and integration of potential future acquisitions, whether involving stock or cash consideration; the potential adverse effects of unusual and infrequently occurring events, such as weather-related disasters, terrorist acts, geopolitical conflicts or public health events (such as pandemics), and of governmental and societal responses thereto; these potential adverse effects may include, without limitation, adverse effects on macroeconomic conditions, the ability of the Company's borrowers to satisfy their obligations to us, on the value of collateral securing loans, on the demand for the Company's loans or the Company's other products and services, on supply chains and methods used to distribute products and services, on incidents of cyberattack and fraud, on the Company's liquidity or capital positions, on risks posed by reliance on third-party service providers, on other aspects of the Company's business operations and on financial markets and economic growth; performance by the Company's counterparties or vendors; deposit flows; the availability of financing and the terms thereof; the level of prepayments on loans and mortgage-backed securities; actual or potential claims, damages, and fines related to litigation or government actions, which may result in, among other things, additional costs, fines, penalties, restrictions on the Company's business activities, reputational harm, or other adverse consequences; any event or development that would cause us to conclude that there was an impairment of any asset, including intangible assets, such as goodwill; and other factors, many of which are beyond the Company's control. A detailed discussion of factors that could affect the Company's results is included in the Company's filings with the Securities and Exchange Commission ("SEC"), including the "Risk Factors" section of its Annual Report on Form 10-K for the year ended December 31, 2025. The Company undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in its expectations, except as required by law. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance or achievements.

DISCLAIMER

This presentation is not an offer to sell securities and the Company is not soliciting an offer to buy securities in any jurisdiction where such offer or sale is not permitted. Neither the Securities and Exchange Commission (the "SEC"), Federal Deposit Insurance Corporation, nor any state securities commission has approved or disapproved of the securities of the Company or passed upon the accuracy or adequacy of this presentation. Any representation to the contrary is a criminal offense.

Certain information contained in this presentation relates to or is based on publications and other data obtained from third-party sources. While the Company believes these third-party sources to be reliable as of the date of this presentation, the Company has not independently verified, and makes no representation as to the adequacy, fairness, accuracy or completeness of, any information obtained from third-party sources. The delivery of this presentation shall not, under any circumstances, create any implication that there has been no change in the affairs of the Company after the date hereof.

PRELIMINARY FINANCIAL INFORMATION

This presentation includes certain preliminary unaudited financial information and expectations relating to the second quarter of 2026. The Company's full unaudited financial statements as of and for the quarterly period ended June 30, 2026, are not yet available. In the opinion of management, such unaudited financial information includes all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the Company's financial position and results of operations for such period. These results are also subject to further revision based upon the review of the Company's independent registered public accounting firm of such quarterly results and an audit by its independent registered public accounting firm of its annual results for the year ended December 31, 2026. Therefore, no assurance can be given that, upon completion of the Company's review and the review of its independent registered public accounting firm, the Company will not report materially different financial results than those set forth in this presentation. There can be no assurance that such results will be indicative of the Company's results for the entire year ending December 31, 2026.

The Company does not intend to update or otherwise revise these expected events and estimates to reflect future events or changes in estimates and does not intend to disclose publicly whether its actual results will vary from its estimates other than through the release of actual results in the ordinary course of business. No independent registered public accounting firm has compiled, examined or performed any procedures with respect to the preliminary financial information included in this presentation, nor have they expressed any opinion or other form of assurance on such information or its achievability. These estimates should not be regarded as a representation by the Company or its management as to the Company's actual results for the quarterly period ended June 30, 2026. The assumptions and estimates underlying the estimated financial information are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties, including those described under "Risk Factors" in the Company's SEC filings. Accordingly, you should not place undue reliance on these estimates.

NON-GAAP FINANCIAL MEASURES

This presentation contains financial measures determined by methods other than in accordance with accounting principles generally accepted in the United States ("GAAP"). Management uses these non-GAAP financial measures to evaluate the Company's business and may refer to such measures in this presentation. The Company's management believes that these non-GAAP financial measures provide a greater understanding of ongoing operations, enhance comparability of results of operations with prior periods and show the effects of significant gains and charges in the periods presented. You should not rely on these non-GAAP financial measures as a substitute for, or as superior to, GAAP results. Non-GAAP financial measures have inherent limitations, are not uniformly applied and are not audited. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. Please refer to the appendix section of this presentation for non-GAAP definitions and a reconciliation of these non-GAAP financial measures to their most directly comparable GAAP measures.

A DELIBERATE, DISCIPLINED TRANSFORMATION JOURNEY

Over the last ten years, we have evolved from a local Virginia community bank into the largest regional bank headquartered in the lower Mid-Atlantic.

Our expansion has been deliberate, blending steady organic growth with focused strategic mergers and acquisitions.

Every acquisition and investment was driven by a specific goal: to establish a strong, connected presence initially throughout Virginia, then Maryland, and now North Carolina. In the near term, we intend to maximize the potential of the Sandy Spring Bank acquisition.

Q2 2026 Highlights

Reported net income available to common shareholders increased 32.6% from the prior quarter driven by:

- **An increase in noninterest income**, primarily driven by a \$32.3 million pre-tax gain on the sale of equity interest in Bearing Insurance Group, LLC ("Bearing Insurance");
- **Increase in net interest income**, primarily driven by higher interest income on loans held for investment ("LHFI") and lower interest expense on long-term borrowing costs;
- **A decrease in noninterest expense**, primarily driven by a \$9.0 million decrease in pre-tax merger-related costs;
- **Partially offset by an increase in provision for credit losses**, primarily driven by the reserve build associated with loan portfolio growth;
- **An increase in income tax expense** associated with higher pre-tax income.

Adjusted operating earnings available to common shareholders¹ increased 6.2% from the prior quarter primarily due to:

- **An increase in net interest income**, as described above;
- **An increase in adjusted noninterest income¹**, primarily due to a \$2.5 million increase in loan-related interest rate swap fees, and a \$1.3 million increase in fiduciary and asset management fees, partially offset by a \$2.8 million decrease in other operating income;
- **Partially offset by an increase in income tax expense**, as described above.

1-month SOFR	41%
Prime	8%
Other	5%
Total	100%

Approximately 19% of the total loan portfolio at 6/30/2026 have floors and all are above floors

COMMENTARY – Q2 2026 vs. Q1 2026

- **Net interest income increased** \$12.7 million to \$325.1 million, and net interest income (FTE)¹ increased \$12.8 million to \$329.7 million from the prior quarter.
- Increases were driven primarily by higher interest income on loans held for investment, reflecting loan growth, higher loan yields, and increased loan accretion income.
- **Net interest margin and net interest margin (FTE)**¹ each increased 9 basis points from the prior quarter to 3.89% and 3.94%, respectively, aided by earning asset yields rising 9 basis points to 5.88%.
- Net accretion income was \$39.9 million for the quarter, compared to \$32.9 million in the prior quarter.
- Loan portfolio is 46% fixed / 41% 1-month SOFR / 8% Prime / 5% other; approximately 19% of the total portfolio has floors, all of which are above their floors at 6/30/26.

INTEREST RATE POSITIONING

NIM, YIELD ON LOANS & COST OF DEPOSITS

Q2 2026 INTEREST RATE SENSITIVITY

COMMENTARY – Q2 2026 vs. Q1 2026

- Average cost of deposits increased 3 basis points to 1.93%, while average cost of funds was unchanged at 1.94%, as increases in deposit costs were offset by lower acquisition accounting-related borrowing amortization.
- Loan yield (FTE)¹ increased 9 basis points to 6.23% and earning asset yield (FTE)¹ increased 9 basis points to 5.88%, driven by higher loan yields and loan accretion income.
- Cost of interest-bearing deposits** was 2.48% and cost of interest-bearing liabilities was 2.59% for the quarter.
- Balance sheet remains modestly asset-sensitive**; the securities portfolio is used defensively to neutralize the overall asset-sensitive interest rate risk profile.

1. Non-GAAP financial measure. Please refer to the appendix for a reconciliation of the non-GAAP financial measure to the most directly comparable GAAP measure.

2. Q2 2025 excludes the impact of the \$15.7 million pre-tax gain on the Commercial Real Estate ("CRE") loan sale and a \$14.3 million pre-tax gain on the sale of the Company's equity interest in Carry Street Partners "CSP".

3. Q3 2025 excludes the impact of the (\$4.8) million pre-tax loss related to the final CRE loan sale settlement.

4. Q4 2025 excludes the impact of the \$457,000 pre-tax gain on sale of the Company's equity interest in CSP.

5. Q2 2026 excludes the impact of the \$32.3 million pre-tax gain on sale of the Company's equity interest in Bearing Insurance Group, LLC ("Bearing Insurance").

Q2 2026 COMPOSITION

COMMENTARY – Q2 2026 vs. Q1 2026

- Noninterest income increased \$35.4 million to \$90.2 million, primarily driven by a \$32.3 million pre-tax gain on the sale of the Company's equity interest in Bearing Insurance.
- Adjusted operating noninterest income¹, which excludes the pre-tax gain on sale of equity interest in Bearing Insurance and pre-tax gains on sale of securities, increased \$3.1 million to \$57.9 million.
- Increase was driven by a \$2.5 million increase in loan-related interest rate swap fees due to an increase in transaction volumes and a \$1.3 million increase in fiduciary and asset management fees, primarily due to an increase in assets under management.
- Partially offset by a \$2.8 million decrease in other operating income, primarily due to a decrease in equity method investment income, reflecting the impact of the Bearing Insurance equity interest sale and mark-to-market valuation losses on certain investments.

Q2 MACROECONOMIC FORECAST

MOODY'S JUNE 2026 BASELINE FORECAST:

- US GDP expected to average ~2.1% growth in 2026 and ~1.9% in 2027.
- The national unemployment rate expected to average ~4.4% in 2026 and ~4.6% 2027.

Q2 ACL CONSIDERATIONS

- Effective January 1, 2026, the Company made certain changes to its ACL methodology as part of the continued enhancement of its credit modeling practices, resulting in more dynamic and precise modeling that allows for more granularity in the monitoring of our credit losses.
- Utilizes a weighted Moody's forecast economic scenarios approach in the overall estimate.
- The increase in the allowance for credit losses reflects growth in both the ALLL and the RUC primarily driven by loan growth and higher unfunded commitments.
- The reasonable and supportable forecast period is 2 years; followed by reversion to the historical loss average over 2 years.

RECONCILIATION OF NON-GAAP DISCLOSURES

The Company believes net interest income (FTE), interest income (FTE), investment income (FTE), total revenue (FTE), earning asset income (FTE), total adjusted revenue (FTE), which are used in computing net interest margin (FTE), core net interest margin (FTE), loan yield (FTE), investment yield (FTE), earning asset yield (FTE), efficiency ratio (FTE) and adjusted operating efficiency ratio (FTE), provide valuable additional insight into the net interest margin, loan yield, investment yield, earning asset yield, and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing the yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.

RECONCILIATION OF NON-GAAP DISCLOSURES

Adjusted operating measures exclude, as applicable, merger-related costs, FDIC special assessment, deferred tax asset write-down, CECL Day 1 non-PCD loans and RUC provision expense, (loss) gain on sale of securities, gain (loss) on CRE loan sale, gain on sale of equity interest in Cary Street Partners ("CSP"), and gain on sale of equity interest in Bearing Insurance. The Company believes these non-GAAP adjusted measures provide investors with important information about the continuing economic results of the Company's operations. The Company believes net interest income (FTE), total revenue (FTE), and total adjusted revenue (FTE), which are used in computing net interest margin (FTE), efficiency ratio (FTE) and adjusted operating efficiency ratio (FTE), provide valuable additional insight into the net interest margin and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing the yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components. The adjusted operating efficiency ratio (FTE) excludes, as applicable, the amortization of intangible assets, merger-related costs, FDIC special assessment, (loss) gain on sale of securities, gain (loss) on CRE loan sale, gain on sale of equity interest in CSP, and gain on sale of equity interest in Bearing Insurance. This measure is similar to the measure used by the Company when analyzing corporate performance and is also similar to the measure used for incentive compensation. The Company believes this adjusted measure provides investors with important information about the continuing economic results of the Company's operations.

RECONCILIATION OF NON-GAAP DISCLOSURES

Tangible assets and tangible common equity are used in the calculation of certain profitability, capital, and per share ratios. The Company believes tangible assets, tangible common equity and the related ratios are meaningful measures of capital adequacy because they provide a meaningful base for period-to-period and company-to-company comparisons, which the Company believes will assist investors in assessing the capital of the Company and its ability to absorb potential losses. The Company believes tangible common equity is an important indication of its ability to grow organically and through business combinations as well as its ability to pay dividends and to engage in various capital management strategies. The Company believes that ROTCE is a meaningful supplement to GAAP financial measures and is useful to investors because it measures the performance of a business consistently across time without regard to whether components of the business were acquired or developed internally. Adjusted operating measures exclude, as applicable, merger-related costs, FDIC special assessment, deferred tax asset write-down, CECL Day 1 non-PCD loans and RUC provision expense, (loss) gain on sale of securities, gain (loss) on CRE loan sale, gain on sale of equity interest in CSP, gain on sale of equity interest in Bearing Insurance and amortization of intangible assets. The Company believes these non-GAAP adjusted measures provide investors with important information about the continuing economic results of the Company's operations.

The Company also calculates adjusted tangible common equity to tangible assets ratios to exclude AOCI, which is principally comprised of unrealized losses on AFS securities, and to exclude the impact of unrealized losses on HTM securities. The Company believes that each of these ratios enables investors to assess the Company's capital levels and capital adequacy without the effects of changes in AOCI, some of which are uncertain and difficult to predict, or assuming that the Company realized all previously unrealized losses on HTM securities at the end of the period, as applicable.

Adjusted operating pre-tax pre-provision earnings (FTE) excludes, as applicable, the provision for credit losses, which can fluctuate significantly from period-to-period under the CECL methodology, income tax expense, merger-related costs, (loss) gain on sale of securities, gain on CRE loan sale, gain on sale of equity interest in CSP, and gain on sale of equity interest in Bearing Insurance. The Company believes this adjusted measure provides investors with important information about the continuing economic results of the Company's operations.

RECONCILIATION OF NON-GAAP DISCLOSURES

The Company believes interest income (FTE) and loan interest income (FTE), which are used in computing loan yield (FTE), provide valuable additional insight into loan yield by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing the yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.
