### United States SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

FORM 8-K/A (Amendment No. 1)

CURRENT REPORT

Pursuant to Section 13 or 15(d) of The Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): April 18, 2024 (April 1, 2024)

ATLANTIC UNION BANKSHARES CORPORATION

(Exact name of registrant as specified in its charter)

Virginia (State or other jurisdiction of incorporation) **001-39325** (Commission File Number) 54-1598552 (I.R.S. Employer Identification No.)

4300 Cox Road

Glen Allen, Virginia 23060

(Address of principal executive offices, including Zip Code)

Registrant's telephone number, including area code: (804) 633-5031

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

□ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

D Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$1.33 per share	AUB	New York Stock Exchange
Depositary Shares, Each Representing a 1/400 <sup>th</sup> Interest in a Share of 6.875% Perpetual Non-Cumulative Preferred Stock, Series A	AUB.PRA	New York Stock Exchange

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

### **Explanatory Note**

On April 1, 2024, Atlantic Union Bankshares Corporation ("Atlantic Union") filed a Current Report on Form 8-K (the "Initial Filing") to report that Atlantic Union had completed its merger with American National Bankshares Inc. ("American National"), pursuant to the Agreement and Plan of Merger, dated as of July 24, 2023, by and between Atlantic Union and American National.

This Amendment No. 1 to Current Report on Form 8-K/A amends the Initial Filing solely to include the historical financial statements of American National and the pro forma financial information required to be filed under Item 9.01 of Form 8-K. The disclosure included in the Initial Filing otherwise remains unchanged.

#### Item 9.01 Financial Statements and Exhibits.

#### (a) Financial statements of the businesses acquired.

The audited financial statements of American National as of December 31, 2023 and 2022, and for each of the three years in the period ended December 31, 2023, together with the notes related thereto and the Report of Independent Registered Public Accounting Firm thereon, are filed as Exhibit 99.1 hereto and incorporated herein by reference.

### (b) Pro forma financial information.

The unaudited pro forma condensed combined balance sheet of Atlantic Union and American National as of December 31, 2023, and the unaudited pro forma condensed combined statement of income of Atlantic Union and American National for the year ended December 31, 2023, and the related notes to the unaudited pro forma condensed combined financial information, are attached as Exhibit 99.2 hereto and incorporated herein by reference.

### (d) Exhibits.

Exhibit No.	Description

Richmond, Virginia April 18, 2024

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders American National Bankshares Inc. Danville, Virginia

### **Opinion on the Financial Statements**

We have audited the accompanying consolidated balance sheets of American National Bankshares Inc. and its Subsidiary (the Company) as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income (loss), changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes to the consolidated financial statements (collectively, the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control* — *Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013, and our report dated March 15, 2024 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

### Adoption of New Accounting Standard

As discussed in Notes 1 and 5 to the financial statements, the Company changed its method of accounting for credit losses in 2023 due to the adoption of Accounting Standards Update 2016-13, Financial Instruments – Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments, including all related amendments.

#### **Basis for Opinion**

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### **Critical Audit Matters**

The critical audit matter communicated below is a matter arising from the current period audit of the financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing separate opinions on the critical audit matter or on the accounts or disclosures to which it relates.

## Allowance for Loan Losses - Loans Collectively Evaluated for Impairment - Qualitative Factors

As described in Note 1 (Summary of Significant Accounting Policies) and Note 5 (Allowance for Credit Losses - Loans and Reserve for Unfunded Lending Commitments) to the consolidated financial statements, the Company maintains an allowance for credit losses on loans ("ACLL") to absorb expected losses in the Company's loan portfolio. The ACLL consists of quantitative and qualitative allowances for loans collectively assessed for credit losses and an allowance for loans that are individually assessed for credit losses.

The quantitative allowance is applied to loan balances pooled by loan type and credit risk indicator using historical default and loss experience as well as estimates for prepayments to calculate lifetime expected losses, with the exception of certain residential real estate loans that use a vintage loss estimation methodology which pools loans by date of origination and applies historical average loss rates based on the age of the loans. The qualitative adjustment factors are determined based on management's continuing evaluation of inputs and assumptions underlying the quality of the loan portfolio. Management evaluates qualitative factors primarily by considering current and expected economic conditions; effects of changes in risk selection, underwriting standards, and lending policies; experience, ability and depth of lending personnel; changes in the quality of its loan review system; regulatory, legal, and competitive factors; and an assessment of the Company's loss experience in comparison to peer group averages.

Management exercised significant judgment when measuring loans collectively assessed for credit losses. We identified the measurement of the ACLL as a critical audit matter as auditing the estimate involved especially complex and subjective auditor judgment in evaluating and testing management's assessment of an inherently complex accounting estimate and process that requires significant management judgment.

The primary audit procedures we performed to address this critical audit matter included:

- Obtaining an understanding and testing the design and operating effectiveness of the Company's ACLL internal controls, and management review controls
  related to collectively evaluated loans, including the process for selection, implementation, and ongoing mointenance of:
  - related to collectively evaluated loans, including the process for selection, implementation, and ongoing maintenance of: o The underlying methodologies of the expected loss models, including identification of loan pools, model validation, monitoring, and the completeness
    - and accuracy of key data inputs and assumptions.
    - Qualitative factors, including development and review of the data inputs used as the basis for the allocations and management's review and approval of the reasonableness of the assumptions used to develop the adjustments, sources of reasonable and supportable economic forecasts and other key inputs.
       Governance and management review processes.
- Substantively testing management's process for measuring the ACLL related to collectively evaluated loans, including:
  - o Evaluating the conceptual soundness of the model and significant assumptions, including the identification of loan pools.
    - o Testing of key data inputs used in the model.
      - Evaluating the methodology's qualitative factors, including:
        - The completeness and accuracy of the data inputs used as a basis for the qualitative factors.
        - The reasonableness of management's judgments related to the determination of the qualitative factors.
        - The directional consistency and reasonableness of the qualitative factor adjustments.
      - Testing the mathematical accuracy of the allowance calculation.

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders American National Bankshares Inc. Danville, Virginia

# Opinion on the Internal Control over Financial Reporting

We have audited American National Bankshares Inc. and its Subsidiary's (the Company) internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income (loss), changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2023, and the related notes to the consolidated financial statements of the Company and our report dated March 15, 2024 expressed an unqualified opinion.

#### **Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting in the accompanying *Management's Annual Report on Internal Control over Financial Reporting*. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

## Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The accompanying notes are an integral part of the consolidated financial statements.

### American National Bankshares Inc. Notes to Consolidated Financial Statements December 31, 2023, 2022, and 2021

### Note 1 – Summary of Significant Accounting Policies

#### Nature of Operations and Consolidation

The consolidated financial statements include the accounts of American National Bankshares Inc. (the "Company") and its wholly owned subsidiary, American National Bank and Trust Company (the "Bank"). The Bank offers a wide variety of retail, commercial, secondary market mortgage lending, and trust and investment services which also include non-deposit products such as mutual funds and insurance policies.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses, goodwill and intangible assets.

The accompanying consolidated financial statements include financial information related to the Company and its majority-owned subsidiaries and those variable interest entities where the Company is the primary beneficiary, if any. In preparing the consolidated financial statements, all significant inter-company accounts and transactions have been eliminated. Assets held in an agency or fiduciary capacity are not included in the consolidated financial statements. Accounting guidance states that if a business enterprise is the primary beneficiary of a variable interest entity, the assets, liabilities, and results of the variable interest entity should be included in the consolidated financial statements of the business enterprise. An entity is deemed to be the primary beneficiary of a variable interest entity has both the power to direct the activities that most significantly impact its economic performance; and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the variable interest entity. Refer to Note 11 for further details concerning variable interest entities.

### Agreement and Plan of Merger

On July 24, 2023, the Company entered into an Agreement and Plan of Merger with Atlantic Union Bankshares Corporation ("Atlantic Union"). The merger agreement provides that the Company will merge with and into Atlantic Union, with Atlantic Union continuing as the surviving entity. Immediately following the merger of the Company and Atlantic Union, the Bank will merge with and into Atlantic Union's wholly owned bank subsidiary, Atlantic Union Bank, with Atlantic Union Bank continuing as the surviving bank. Subject to the terms and conditions of the merger agreement, at the effective time of the merger, each outstanding share of common stock of the Company will be converted into the right to receive 1.35 shares of common stock of Atlantic Union, with cash to be paid in lieu of any fractional shares. The merger is expected to close on April 1, 2024, subject to satisfaction of customary closing conditions.

#### Cash and Cash Equivalents

Cash includes cash on hand, cash with correspondent banks, and cash on deposit at the Federal Reserve Bank of Richmond. Cash equivalents are short-term, highly liquid investments that are readily convertible to cash with original maturities of three months or less and are subject to an insignificant risk of change in value. Cash and cash equivalents are carried at cost.

#### Interest-bearing Deposits in Other Banks

Interest-bearing deposits in other banks mature within one year and are carried at cost.

#### Securities

For available-for-sale ("AFS") securities, the Company evaluates the fair value and credit quality of its AFS securities on at least a quarterly basis. In the event the fair value of a security falls below its amortized cost basis, the security will be evaluated to determine whether the decline in value was caused by changes in market interest rates or security credit quality. The primary indicators of credit quality for the Company's AFS portfolio are security type and credit rating, which is influenced by a number of security-specific factors that may include obligor cash flow, geography, seniority, and others. There is currently no allowance for credit losses ("ACL") recorded against any securities in the Company's AFS securities portfolio at December 31, 2023. See Note 3 - "Securities" for additional information on the Company's ACL analysis. If unrealized losses are related to credit quality, the Company estimates the credit related loss by evaluating the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis of the security and a credit loss, imited by the amount that the fair value is less than amortized cost basis.

The Company does not currently have any securities in held to maturity or trading and has no plans to add any to either category.

Equity securities with readily determinable fair values are carried at fair value with changes in fair value included in noninterest income.

Due to the nature and restrictions placed on the Company's investment in common stock of the Federal Home Loan Bank of Atlanta ("FHLB") and the Federal Reserve Bank of Richmond, these securities have been classified as restricted equity securities and carried at cost.

### Loans Held for Sale

Secondary market mortgage loans are designated as held for sale at the time of their origination. These loans are pre-sold with servicing released and the Company does not retain any interest after the loans are sold. These loans consist primarily of fixed-rate, single-family residential mortgage loans which meet the underwriting characteristics of certain government-sponsored enterprises (conforming loans). In addition, the Company requires a firm purchase committeent from a permanent investor before a loan can be committed, thus limiting interest rate risk. Loans held for sale are carried at fair value. Gains on sales of loans are recognized at the loan closing date and are included in noninterest income.

### Derivative Loan Commitments

The Company enters into mortgage loan commitments whereby the interest rate on the loan is determined prior to funding (rate lock commitments). Mortgage loan commitments are referred to as derivative loan commitments if the loan that will result from exercise of the commitment will be held for sale upon funding. Loan commitments that are derivatives are recognized at fair value on the consolidated balance sheets with net changes in their fair values recorded in other expenses.

The period of time between issuance of a loan commitment and sale of the loan generally ranges from 30 to 60 days. The Company protects itself from changes in interest rates through the use of best efforts forward delivery contracts, by committing to sell a loan at the time the borrower commits to an interest rate with the intent that the buyer has assumed the interest rate risk on the loan. As a result, the Company is not generally exposed to significant losses nor will it realize significant gains related to its rate lock commitments due to changes in interest rates. The correlation between the rate lock commitments and the best efforts contracts is very high due to their similarity.

The fair value of rate lock commitments and best efforts contracts is not readily ascertainable with precision because rate lock commitments and best efforts contracts are not actively traded in stand-alone markets. The Company determines the fair value of rate lock commitments and best efforts contracts by measuring the change in the estimated value of the underlying assets while taking into consideration the probability that the loans will be funded.

### Loans Held for Investment

The Company makes mortgage, commercial, and consumer loans. A substantial portion of the loan portfolio is secured by real estate. The ability of the Company's debtors to honor their contracts is dependent upon the real estate market and general economic conditions in the Company's market area.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off generally are reported at their outstanding unpaid principal balance adjusted for the allowance for credit losses and any deferred fees or costs. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield using the interest method. The accrual of interest on loans is generally discontinued at the time the loan is 90 days delinquent unless the credit is well-secured and in process of collection. Loans are typically charged off when the loan is 120 days past due, unless secured and in process of collection. Loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest is considered doubtful.

Interest accrued but not collected for loans that are placed on nonaccrual status or charged-off is reversed against interest income. The interest on these loans is accounted for on the cash basis or cost recovery method until qualifying for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

A loan is considered past due when a payment of principal or interest or both is due but not paid. Management closely monitors past due loans in timeframes of 30-59 days, 60-89 days, and 90 or more days past due.

### These policies apply to all loan portfolio classes and segments.

The Company's loan portfolio is organized by major segment. These include: commercial, commercial real estate, residential real estate and consumer loans. Each segment has particular risk characteristics that are specific to the borrower and the generic category of credit. Commercial loan repayments are highly dependent on cash flows associated with the underlying business and its profitability. They can also be impacted by changes in collateral values. Commercial real estate loans share the same general risk characteristics as commercial loans but are often more dependent on the value of the underlying real estate collateral and, when construction is involved, the ultimate completion of and sale of the project. Residential real estate loans are generally dependent on the value of collateral and the credit worthiness of the underlying borrower. Consumer loans are very similar in risk characteristics to residential real estate.

## Allowance for Credit Losses ("ACL") - Loans

The provision for credit losses charged to operations is an amount sufficient to bring the allowance to an estimated balance that management considers adequate to absorb expected losses in the Company's loan portfolio. The ACL is a valuation allowance that is deducted from the loans' amortized cost basis to present the net amount expected to be collected on the loans. Amortized cost is the principal balance outstanding, net of any purchase premiums and discounts and net of any deferred loan fees and costs. The ACL represents management's estimate of credit losses over the remaining life of the loan portfolio. Loans are charged off against the ACL when management believes the loan balance is no longer collectible. Subsequent recoveries of previously charged off amounts are recorded as increases to the ACL.

The Company's ACL consists of quantitative and qualitative allowances and an allowance for loans that are individually assessed for credit losses. Each of these components is determined based upon estimates and judgments. The quantitative allowance uses historical default and loss experience as well as estimates for prepayments to calculate lifetime expected losses, along with various qualitative factors, including the effects of changes in risk selection, underwriting standards, and lending policies; expected economic conditions throughout a reasonable and supportable period of 24 months; experience of lending staff; quality of the loan review system; and changes in the regulatory, legal, and competitive environment and consideration of peer loss experience. The Company considers economic forecasts from highly recognized third-parties for the model inputs. Loans are segmented based on the type of loan and internal risk ratings. The Company utilizes two calculation methodologies to estimate the collective quantitative allowance: the vintage method and the non-discounted cash flow method. Allowance estimates for residential real estate loans are determined by a vintage method which pools loans by date of origination and applies historical average loss rates based on the age of the loans. Allowance estimates for all other loan types are determined by a non-discounted cash flow method which applies historical probabilities of default and loss given default rates to model expected cash flows for each loan through its life and forecast future expected losses.

Loans that do not share risk characteristics are evaluated on an individual basis. The individual reserve component relates to loans that have shown substantial credit deterioration as measured by risk rating and/or delinquency status. In addition, the Company has elected the practical expedient that would include loans for individual assessment consideration if the repayment of the loan is expected substantially through the operation or sale of collateral because the borrower is experiencing financial difficulty. Where the source of repayment is the sale of collateral, the ACL is based on the fair value of the underlying collateral, less selling costs, compared to the amortized cost basis of the loan. If the ACL is based on the collateral, the reserve is calculated based on the fair value of the collateral calculated as the present value of expected cash flows from the operation of the collateral, compared to the amortized cost basis. If the Company determines that the value of a collateral dependent loan is less than the recorded investment in the loan, the Company charges off the deficiency if it is determined that such amount is deemed to be a confirmed loss.

#### Allowance for Unfunded Commitments

The Company estimates expected credit losses over the contractual period in which the Company is exposed to credit risk via a contractual obligation to extend credit, unless that obligation is unconditionally cancellable by the Company. The reserve for unfunded commitments is adjusted through the provision for credit losses. The calculation of the allowance is consistent with the loss rate calculations for the loan portfolio described above. The estimate includes consideration of the likelihood that funding will occur and an estimate of expected credit losses on commitments expected to be funded and the provision is recorded in ACL and the reserve is in "Other Liabilities" within the Company's Consolidated Balance Sheets.

#### Premises and Equipment

Land is carried at cost. Premises and equipment are stated at cost, less accumulated depreciation and amortization. Premises and equipment are depreciated over their estimated useful lives ranging from three years to thirty-nine years; leasehold improvements are amortized over the lives of the respective leases or the estimated useful lives of the improvements, whichever is less. Software is generally amortized over three years. Depreciation and amortization are recorded on the straight-line method.

Costs of maintenance and repairs are charged to expense as incurred. Costs of replacing structural parts of major units are considered individually and are expensed or capitalized as the facts dictate. Gains and losses on routine dispositions are reflected in current operations.

#### Goodwill and Intangible Assets

Goodwill represents the excess of the cost of an acquired entity over the fair value of the identifiable net assets acquired. The Company follows Accounting Standards Codification ("ASC") 350, *Intangibles - Goodwill and Other*, which prescribes the accounting for goodwill and intangible assets subsequent to initial recognition. The Company performs its annual analysis as of June 30 each year. Goodwill is not amortized, but is subject to at least an annual assessment for impairment. Other acquired intangible assets with finite lives (such as core deposit intangibles) are initially recorded at estimated fair value and are amortized over their useful lives. Core deposit and other intangible assets are generally amortized using accelerated methods over their useful lives of five to ten years.

#### Leases

The Company determines if an arrangement is a lease at inception. All of the Company's leases are currently classified as operating leases and are included in other assets and other liabilities on the Company's Consolidated Balance Sheets. Periodic operating lease costs are recorded in occupancy expenses of premises on the Company's Consolidated Statements of Income.

Right-of-use ("ROU") assets represent the Company's right to use an underlying asset for the lease term, and lease liabilities represent the Company's obligation to make lease payments arising from the lease arrangements. Operating lease ROU assets and liabilities are recognized at the lease commencement date based on the present value of the expected future lease payments over the remaining lease term. In determining the present value of future lease payments, the Company uses its incremental borrowing rate based on the information available at the lease commencement date. The operating ROU assets are adjusted for any lease payments made at or before the lease commencement date, initial direct costs, any lease incentives received and, for acquired leases, any favorable or unfavorable fair value adjustments. The present value of the lease eterms. Lease expense is recognized on a straight-line basis over the expected lease term. Lease agreements that include lease and non-lease components, such as common area maintenance charges, are accounted for separately.

### Wealth Management Assets

Securities and other property held by the wealth management segment in a fiduciary or agency capacity are not assets of the Company and are not included in the accompanying consolidated financial statements.

## Other Real Estate Owned ("OREO")

OREO represents real estate that has been acquired through loan foreclosures or deeds received in lieu of loan payments. Generally, such properties are appraised at the time acquired and are recorded at fair value less estimated selling costs. Subsequent to foreclosure, valuations are periodically performed by management, and the assets are carried at the lower of carrying amount or fair value less cost to sell. Revenue and expenses from operations and changes in the valuation allowance are included in noninterest expense.

#### Bank Owned Life Insurance

In connection with mergers, the Company has acquired bank owned life insurance ("BOLI"). The asset is reflected as the cash surrender value of the policies as provided by the insurer on a monthly basis.

## Transfers of Financial Assets

Transfers of financial assets are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company – put presumptively beyond reach of the transferror and its creditors, even in bankruptcy or other receivership, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity or the ability to unilaterally cause the holder to return specific assets.

### Income Taxes

The Company uses the balance sheet method to account for deferred income tax assets and liabilities. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

When tax returns are filed, it is highly certain that some positions taken would be sustained upon examination by the taxing authorities, while others are subject to uncertainty about the merits of the position taken or the amount of the position that would be ultimately sustained. The benefit of a tax position is recognized in the financial statements in the period during which, based on all available evidence, management believes it is more likely than not that the position will be sustained upon examination, including the resolution of appeals or litigation processes, if any. Tax positions taken are not offset or aggregated with other positions. Tax positions that meet the more-likely-than-not recognition threshold are measured as the largest amount of tax benefit that is more than 50 percent likely of being realized upon settlement with the applicable taxing authority. The portion of the benefits associated with tax positions taken that exceeds the amount measured as described above is reflected as a liability for unrecognized tax benefits in the accompanying consolidated balance sheet along with any associated interest and penalties that would be payable to the taxing authorities upon examination. The Company had no liability for unrecognized tax benefits as of December 31, 2023 and 2022.

### Stock-Based Compensation

Stock compensation accounting guidance ASC 718, *Compensation - Stock Compensation*, requires that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the grant date fair value of the equity or liability instruments issued. The stock compensation accounting guidance covers a wide range of share-based compensation arrangements including stock options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans.

The stock compensation accounting guidance requires that compensation cost for all stock awards be calculated and recognized over the employees' service period, generally defined as the vesting period. For awards with graded-vesting, compensation cost is recognized on a straight-line basis over the requisite service period for the entire award. A Black-Scholes model is used to estimate the fair value of stock options, while the market price of the Company's common stock at the date of grant is used for restricted stock awards.

#### Earnings Per Common Share

Basic earnings per common share represent income available to common shareholders divided by the average number of common shares outstanding during the period. Diluted earnings per common share reflect the impact of additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company consist solely of outstanding stock options and are determined using the treasury method. Nonvested shares of restricted stock are included in the computation of basic earnings per share because the holder has voting rights and shares in non-forfeitable dividends during the vesting period.

### Comprehensive Income

Comprehensive income is shown in a two statement approach; the first statement presents total net income and its components followed by a second statement that presents all the components of other comprehensive income which include unrealized gains and losses on available for sale securities, unrealized gains and losses on cash flow hedges, and changes in the funded status of the defined benefit postretirement plan.

#### Advertising and Marketing Costs

Advertising and marketing costs are expensed as incurred.

#### Mergers and Acquisitions

Business combinations are accounted for under ASC 805, *Business Combinations*, using the acquisition method of accounting. The acquisition method of accounting requires an acquirer to recognize the assets acquired and the liabilities assumed at the acquisition date measured at their fair values as of that date. To determine the fair values, the Company relies on third party valuations, such as appraisals, or internal valuations based on discounted cash flow analyses or other valuation techniques. Under the acquisition method of accounting, the Company identifies the acquirer and the closing date and applies applicable recognition principles and conditions. Acquisition-related costs are costs the Company incurs to effect a business combination. Those costs include advisory, legal, accounting, valuation, and other professional or consulting fees. Some other examples of costs to the Company include systems conversions, integration planning consultants and advertising costs. The Company accounts for acquisition-related costs as expenses in the periods in which the costs are incurred and the services are received, with one exception. The costs to issue debt or equity securities is recognized in accordance with other applicable GAAP. These acquisition-related costs have been and will be included within the consolidated statements of income classified within the noninterest expense caption. Merger related expenses were \$2.6 million for the year ended December 31, 2023. There were no such acquisition related costs for the years ended December 31, 2022, or 2021.

#### Derivative Financial Instruments

The Company uses derivatives primarily to manage risk associated with changing interest rates. The Company's derivative financial instruments consisted of interest rate swaps that qualify as cash flow hedges of the Company's trust preferred capital notes. The Company recognized derivative financial instruments at fair value as either an other asset or other liability in the consolidated balance sheets. The effective portion of the gain or loss on the Company's cash flow hedges was reported as a component of other comprehensive income, net of deferred income taxes, and was reclassified into earnings in the same period or periods during which the hedged transactions affect earnings. The company terminated the interest rate swaps in October 2023. See Note 12 - "Derivative Financial Instruments and Hedging Activities" for additional information.

## Reclassifications

Certain reclassifications have been made in prior years' financial statements to conform to classifications used in the current year. There were no material reclassifications.

#### Accounting Standards Adopted in 2023

On January 1, 2023, the Company adopted Accounting Standards Update ("ASU") 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." This standard replaced the incurred loss methodology with an expected loss methodology that is referred to as the current expected credit loss ("CECL") methodology. CECL requires an estimate of credit losses from the remaining estimated life of the financial asset using historical experience, current conditions, and reasonable and supportable forecasts and generally applies to financial assets measured at amortized cost, including loan receivables and some off-balance sheet credit exposures such as unfunded commitments to extend credit. Financial assets measured at amortized cost will be presented at the net amount expected to be collected by using an allowance for credit losses. In addition, CECL required changes to the accounting for available for sale debt securities. The adjustments recorded at adoption were increases to the allowance for credit losses on loans of \$5.2 million, \$305 thousand to the reserve for unfunded loan commitments and \$1.2 million to deferred tax assets. The adjustment to retained earnings was a decrease of \$4.2 million.

The Company adopted ASC 326 using the prospective transition approach for purchased credit deteriorated ("PCD") assets that were previously classified as purchased credit impaired ("PCI") under ASC 310-30. Results for reporting periods beginning after January 1, 2023 are presented under CECL while prior period amounts continue to be reported in accordance with previously applicable accounting standards ("Incurred Loss Model"). The Company adopted ASC 326 using the prospective transition approach for debt securities. The Company elected not to measure an allowance for credit losses for accrued interest receivable and instead elected to reverse interest income on loans that are placed on nonaccrual status, which is generally when the loan is 90 days past due, or earlier if the Company believes the collection of interest is doubtful.

In March 2022, the Financial Accounting Standards Board ("FASB") issued ASU 2022-02, "Financial Instruments-Credit Losses (Topic 326), Troubled Debt Restructurings and Vintage Disclosures." ASU 2022-02 addresses areas identified by FASB as part of its post-implementation review of the credit losses standard that introduced the CECL model. The amendments eliminate the accounting guidance for troubled debt restructurings ("TDRs") by creditors that have adopted the CECL model and enhance the disclosure requirements for loan refinancings and restructurings made with borrowers experiencing financial difficulty. In addition, the amendments require a public business entity to disclose current-period gross write-offs for financing receivables and net investment in leases by year of origination in the vintage disclosures. The Company adopted the provision in ASU 2022-02 related to the recognition and measurement of TDRs on a prospective basis on January 1, 2023. The TDR classification is no longer applicable subsequent to December 31, 2022. The adoption of ASU 2022-02 did not have a material effect on the Company's consolidated financial statements. See Note 4 - "Loans" for discussion.

Information contained within the report prior to adoption of ASU 2022-02 and ASU 2016-13 for the year ended December 31, 2022 and 2021, respectively, reflects prior GAAP.

In December 2022, the FASB issued ASU 2022-06, "Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848." ASU 2022-06 extends the period of time preparers can utilize the reference rate reform relief guidance in Topic 848. The objective of the guidance in Topic 848 is to provide relief during the temporary transition period, so the FASB included a sunset provision within Topic 848 based on expectations of when the London Interbank Offered Rate ("LIBOR") would cease being published. In 2021, the UK Financial Conduct Authority (FCA) delayed the intended cessation date of certain tenors of USD LIBOR to June 30, 2023. To ensure the relief in Topic 848 covers the period of time during which a significant number of modifications may take place, the ASU defers the sunset date of Topic 848 from December 31, 2024, after which entities will no longer be permitted to apply the relief in Topic 848. The ASU was effective for all entities upon issuance. The Company adopted ASU 2022-06 in the year ended December 31, 2023. The adoption did not have a material effect on the Company's consolidated financial statements.

## **Recent Accounting Pronouncements**

In December 2023, FASB issued ASU 2023-09, "Income Taxes (Topic 740): Improvements to Income Tax Disclosures." The amendments in this ASU require an entity to disclose specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold, which is greater than five percent of the amount computed by multiplying pretax income by the entity's applicable statutory rate, on an annual basis. Additionally, the amendments in this ASU require an entity to disclose the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes and the amount of income taxes paid (net of refunds received) disaggregated by federal, state, and foreign taxes paid (net of refunds received). Lastly, the amendments in this ASU require an entity to disclose income (or loss) from continuing operations before income taxes paid (net of refunds received). Lastly, the amendments in this ASU require and income tax expense (or benefit) from continuing operations disaggregated by federal, state, and foreign. This ASU is effective for annual periods beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied on a prospective basis; however, retrospective application is permitted. The Company does not expect the adoption of ASU 2023-09 to have a material impact on its consolidated financial statements.

In November 2023, the Financial Accounting Standards Board (FASB) issued ASU 2023-07, "Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures." The amendments in this ASU are intended to improve reportable segment disclosure requirements primarily through enhanced disclosures about significant segment expenses. This ASU requires disclosure of significant segment expenses that are regularly provided to the chief operating decision mark ("CODM"), an amount for other segment items by reportable segment and a description of its composition, all annual disclosures required by FASB ASU Topic 280 in interim periods as well, and the title and position of the CODM and how the CODM uses the reported measures. Additionally, this ASU requires that at least one of the reported segment profit and loss measures should be the measure that is most consistent with the measurement principles used in an entity's consolidated financial statements. Lastly, this ASU requires 280. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. Early adoption is permitted. The amendments should be applied retrospectively. The Company does not expect the adoption of ASU 2023-07 to have a material impact on its consolidated financial statements.

In October 2023, the Financial Accounting Standards Board (FASB) issued ASU 2023-06, "Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative." This ASU incorporates certain U.S. Securities and Exchange Commission ("SEC") disclosure requirements into the FASB Accounting Standards Codification. The amendments in the ASU are expected to clarify or improve disclosure and presentation requirements of a variety of Codification Topics, allow users to more easily compare entities subject to the SEC's existing disclosures with those entities that were not previously subject to the requirements, and align the requirements in the Codification with the SEC's regulations. For entities subject to the SEC's existing disclosure requirements and for entities required to file or furnish financial statements with or to the SEC in preparation for the sale of or for purposes of issuing securities that are not subject to contractual restrictions on transfer, the effective date for each amendment will be the date on which the SEC removes that related disclosure from its regulations, the amendments will be removed from the Codification and not become effective for any entity. The Company does not expect the adoption of ASU 2023-06 to have a material impact on its consolidated financial statements.

## Table of Contents Note 2 - Restrictions on Cash

The Company maintains cash accounts in other commercial banks. The amount on deposit with correspondent institutions atDecember 31, 2023 exceeded the insurance limits of the FDIC by \$2.8 million.

## Note 3 - Securities

The amortized cost and estimated fair value of investments in securities at December 31,2023 and 2022 were as follows (dollars in thousands):

		December 31, 2023									
	_	Amortized Cost	Unrealized Gains		Unrealized Losses		F	air Value			
Securities available for sale:											
U.S. Treasury	\$	131,731	\$	—	\$	7,964	\$	123,767			
Federal agencies and GSEs		76,702		3		4,472		72,233			
Mortgage-backed and CMOs		292,590		1		35,827		256,764			
State and municipal		45,999		—		3,577		42,422			
Corporate		30,812				4,479		26,333			
Total securities available for sale	\$	577,834	\$	4	\$	56,319	\$	521,519			

The Company had no equity securities at December 31, 2023 or December 31, 2022.

(Dollars in thousands)		December 31, 2022									
	Amortized Cost	Unrealized Gains	U	nrealized Losses	Fa	air Value					
Securities available for sale:											
U.S. Treasury	\$ 152,0	33 \$	- \$	12,606	\$	139,427					
Federal agencies and GSEs	90,3	63	1	7,019		83,348					
Mortgage-backed and CMOs	336,3	93	l	42,301		294,093					
State and municipal	69,0	23 12	2	5,312		63,723					
Corporate	31,2	99 –	-	3,828		27,471					
Total securities available for sale	\$ 679,1	11 \$ 1'	7 \$	71,066	\$	608,062					

The amortized cost and estimated fair value of investments in debt securities atDecember 31, 2023, by contractual maturity, are shown in the following table. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties. Because mortgage-backed securities have both known principal repayment terms as well as unknown principal repayments due to potential borrower pre-payments, it is difficult to accurately predict the final maturity of these investments. Mortgage-backed securities are shown separately (dollars in thousands):

		Available for Sale					
	Α	mortized					
	Cost						
Due in one year or less	\$	66,221	\$	64,528			
Due after one year through five years		155,815		144,776			
Due after five years through ten years		52,229		45,302			
Due after ten years		10,979		10,148			
Mortgage-backed and CMOs		292,590		256,765			
	\$	577,834	\$	521,519			

Gross realized gains and losses on, and the proceeds from the sale of, securities available for sale were as follows (dollars in thousands):

	For the Year Ended December 31,									
		2023		2022		2021				
Gross realized gains	\$	55	\$		\$	35				
Gross realized losses		(123)		—		_				
Proceeds from sales of securities		13,180		—		561				

Securities with a carrying value of approximately \$202.0 million and \$118.9 million at December 31, 2023 and 2022, respectively, were pledged to secure public deposits, repurchase agreements, and for other purposes as required by law. FHLB letters of credit were used as additional collateral in the amounts of \$210.0 million at December 31, 2023 and \$170.0 million at December 31, 2022.

### Unrealized Losses on Securities

The following table shows estimated fair value and gross unrealized losses for which an ACL has not been recorded, aggregated by category and length of time that securities have been in a continuous unrealized loss position, at December 31, 2023. The reference point for determining when securities are in an unrealized loss position is month end. Therefore, it is possible that a security's market value exceeded its amortized cost on other days during the past twelve-month period.

AFS securities that have been in a continuous unrealized loss position, at December 31, 2023, were as follows(dollars in thousands):

	То			Less than 12 Months				12 Months or More			
	 Fair Unrealized Value Loss			Fair Value		Unrealized Loss		Fair Value		Unrealized Loss	
U.S. Treasury	\$ 123,767	\$	7,964	\$	_	\$	_	\$	123,767	\$	7,964
Federal agencies and GSEs	71,975		4,472		210				71,765		4,472
Mortgage-backed and CMOs	256,615		35,827		111		2		256,504		35,825
State and municipal	42,377		3,577		1,621		15		40,756		3,562
Corporate	26,333		4,479		1,506		194		24,827		4,285
Total	\$ 521,067	\$	56,319	\$	3,448	\$	211	\$	517,619	\$	56,108

*U.S. Treasury*: The unrealized losses on the Company's investment in 19 U.S. Treasury securities were caused by normal market fluctuations. Nineteen of these securities were in an unrealized loss position for 12 months or more. The contractual terms of those investments do not permit the issuer to settle the securities at a price less than the amortized cost bases of the investments. Because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

*Federal agencies and GSEs:* The unrealized losses on the Company's investment in 38 government sponsored entities ("GSEs") were caused by normal market fluctuations. Thirty-seven of these securities were in an unrealized loss position for 12 months or more. The contractual terms of those investments do not permit the issuer to settle the securities at a price less than the amortized cost bases of the investments. Because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

*Mortgage-backed securities:* The unrealized losses on the Company's investment in 131 GSE mortgage-backed securities were caused by normal market fluctuations. One hundred twenty-one of these securities were in an unrealized loss position for 12 months or more. The contractual cash flows of those investments are guaranteed by an agency of the U.S. Government. Accordingly, it is expected that the securities would not be settled at a price less than the amortized cost bases of the Company's investments. Because the decline in market value is attributable to changes in interest rates and not credit quality, and because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

*Collateralized Mortgage Obligations:* The unrealized losses associated with 53 GSE collateralized mortgage obligations ("CMOs") were due to normal market fluctuations. All of these securities were in an unrealized loss position for 12 months or more. The contractual cash flows of these investments are guaranteed by an agency of the U.S. Government. Accordingly, it is expected that the securities would not be settled at a price less than the amortized cost bases of the Company's investments. Because the decline in market value is attributable to changes in interest rates and not credit quality, and because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of its amortized cost bases, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

State and municipal securities: The unrealized losses on 59 state and municipal securities were caused by normal market fluctuations. Fifty-seven of these securities were in an unrealized loss position for 12 months or more. These securities are of high credit quality (rated A- or higher), and principal and interest payments have been made timely. The contractual terms of these investments do not permit the issuer to settle the securities at a price less than the amortized cost bases of the investments. Because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

*Corporate securities*: The unrealized losses on 12 corporate securities were caused by normal market fluctuations and not credit deterioration. All of these securities were in an unrealized loss position for 12 months or more. These securities are not rated, but the Company conducted thorough internal credit reviews prior to purchase and conducts ongoing quarterly reviews of these companies as well, and the Company's analysis did not indicate the existence of credit loss. The contractual terms of these investments do not permit the issuer to settle the securities at a price less than the amortized cost basis of the investments. Because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost basis, which may be maturity, the Company concluded there were no credit related losses at December 31, 2023.

Due to restrictions placed upon the Bank's common stock investment in the Federal Reserve Bank of Richmond and FHLB, these securities have been classified as restricted equity securities and carried at cost. These restricted securities are not subject to the investment security classification requirements and are included as a separate line item on the Company's consolidated balance sheet. Restricted equity securities consist of Federal Reserve Bank of Richmond stock in the amount of \$6.6 million and \$6.5 million as of December 31, 2023 and 2022 respectively, and FHLB stock in the amount of \$4.0 million and \$6.1 million as of December 31, 2023 and 2022, respectively.

### Allowance for Credit Losses-Available for Sale Securities

As of December 31, 2023 and 2022, there were no allowances for credit losses-securities available for sale. The Company does not believe that the AFS debt securities that were in an unrealized loss position as of December 31, 2023, which were comprised of 312 individual securities, represent a credit loss impairment. As of December 31, 2023 and 2022, the gross unrealized loss positions were primarily related to mortgage-backed securities issued by U.S. government agencies or U.S. government-sponsored enterprises. These securities carry the explicit and/or implicit guarantee of the U.S. government, are widely recognized as "risk free," and have a long history of zero credit losses. Total gross unrealized losses were attributable to changes in interest rates, relative to when the investment securities were purchased, and not due to the credit quality of the investment securities. The Company does not intend to sell the investment securities that were in an unrealized loss position and it is not more likely than not that the Company will be required to sell the investment securities does basis, which may be at maturity.

## Realized Gains and Losses

Net proceeds from sales of AFS securities for the year ended December 31, 2023 totaled \$13.2 million. Gross realized gains on these sales were \$55 thousand, while gross realized losses were \$123 thousand, which resulted in a net realized loss of \$68 thousand. The Company did not have any sales of AFS securities during the year ended December 31, 2022 and recorded realized gains of \$35 thousand for the year ended December 31, 2021.

The table below shows gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities had been in a continuous unrealized loss position, at December 31, 2022 (dollars in thousands):

	Tot		Less than 12 Months					12 Months or More				
	 Fair Unrealized		Fair			Unrealized		Fair	U	nrealized		
	 Value		Loss		Value		Loss		Value		Loss	
U.S. Treasury	\$ 139,427	\$	12,606	\$	10,824	\$	915	\$	128,603	\$	11,691

State and municipal	60,629		5,312		31,866		980		28,763		4,332	
Corporate	 27,471		3,828		18,991		2,556		8,480		1,272	
Total	\$ 604,414	\$	71,066	\$	187,643	\$	13,616	\$	416,771	\$	57,450	

#### Note 4 - Loans

Loans, excluding loans held for sale at December 31,2023 and 2022 were comprised of the following (dollars in thousands):

	December 31,						
		2023		2022			
Commercial	\$	302,305	\$	304,247			
Commercial real estate:							
Construction and land development		274,035		197,525			
Commercial real estate - owner occupied		414,321		418,462			
Commercial real estate - non-owner occupied		830,655		827,728			
Residential real estate:							
Residential		369,892		338,132			
Home equity		90,298		93,740			
Consumer		6,814		6,615			
Total loans, net of deferred fees and costs	\$	2,288,320	\$	2,186,449			

Net deferred loan costs included in the above loan categories are \$255 thousand for 2023 and \$202 thousand for 2022 in all other categories.

Overdraft deposits were reclassified to consumer loans in the amount of \$132 thousand and \$70 thousand for 2023 and 2022, respectively.

### Acquired Loans

The following information as of and for the year ended December 31, 2022 was in accordance with the guidance in effect prior to the adoption of ASC 326. The outstanding principal balance and the carrying amount of these loans, including ASC 310-30 loans, included in the consolidated balance sheets at December 31, 2022 were as follows (dollars in thousands):

	2022
Outstanding principal balance	\$ 125,856
Carrying amount	120,432

The outstanding principal balance and related carrying amount of purchased credit impaired loans, for which the Company applies ASC 310-30 to account for interest earned, at December 31, 2022 are as follows (dollars in thousands):

	2022
Outstanding principal balance	\$ 17,788
Carrying amount	13,541

The following table presents changes in the accretable yield on purchased credit impaired loans, for which the Company applies ASC 310-30, for the year ended December 31, 2022,(dollars in thousands):

	2022
Balance at January 1	\$ 4,902
Accretion	(2,186)
Reclassification from nonaccretable difference	986
Other changes, net (1)	 (172)
Balance at December 31	\$ 3,530

(1) This line item represents changes in the cash flows expected to be collected due to the impact of non-credit changes such as prepayment assumptions, changes in interest rates on variable rate acquired impaired loans, and discounted payoffs that occurred in the period.

# Past Due Loans

The following table shows an analysis by portfolio segment of the Company's past due loans at December 312023 (dollars in thousands):

	30- 59 Day Past Due		60-89 Days Past Due	Pa ar	Days + ast Due ad Still ccruing	Non- Accrual Loans	Total Past Due	 Current	Total Loans

Total collateral dependent loans	\$ 340	\$ -	\$ -	\$ 2,327	\$ 2,911	\$ 5,578

The allowance for credit losses incorporates an estimate of lifetime expected credit losses and is recorded on each asset upon asset origination or acquisition. The starting point for the estimate of the allowance for credit losses is historical loss information, which includes losses from modifications of receivables to borrowers experiencing financial difficulty. The Company uses a probability of default/loss given default model to determine the allowance for credit losses. An assessment of whether a borrower is experiencing financial difficulty is made on the date of a modification.

Because the effect of most modifications made to borrowers experiencing financial difficulty is already included in the allowance for credit losses because of the measurement methodologies used to estimate the allowance, a change to the allowance for credit losses is generally not recorded upon modification. Occasionally, the Company modifies loans by providing principal forgiveness on certain of its real estate loans. When principal forgiveness is provided, the amortized cost basis of the asset is written off against the allowance for credit losses. The amount of the principal forgiveness is deemed to be uncollectible; therefore, that portion of the loan is written off, resulting in a reduction of the amortized cost basis and a corresponding adjustment to the allowance for credit losses. In some cases, the Company will modify a certain loan by providing multiple types of concessions. Typically, one type of concession, such as a term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted.

The following table shows the amortized cost basis of loans modified to borrowers experiencing financial difficulty during the year ended December 31, 2023. All loans shown in the table below are in nonaccrual status except for the residential real estate loan. All loans shown below are paying in agreement with the terms and are not past due. There have been no defaults in the years ended December 31, 2023 or 2022. It is shown by class of loan and type of concession granted and describes the financial effect of the modification made to the borrower experiencing financial difficulty (dollars in thousands):

		Type of Modification										
	Am	ortized Cost Basis	% of Total Loan Type	Financial Effect								
Commercial real estate-owner occupied	\$	2,315	0.56%	Term extension.								
Commercial real estate-nonowner occupied		2,517	0.30	Interest rate reduction and term extension.								
Residential real estate		8	-	Term extension.								
Commercial real estate-owner occupied		454	0.11	Term extension.								

The following table presents the Company's impaired loan balances by portfolio segment, excluding acquired impaired loans, at December 31,2022 (dollars in thousands):

		ecorded vestment		Unpaid Principal Balance		Related Allowance	Average Recorded Investment			Interest Income Recognized

In the table above, recorded investment may be different than unpaid principal balance due to acquired loans with a premium or discount and loans with unearned costs or unearned fees.

## Residential Real Estate in process of Foreclosure

The Company had \$23 thousand and \$715 thousand in residential real estate loans in the process of foreclosure at December 31,2023 and December 31, 2022, respectively. The Company had no residential OREO at December 31, 2023 and December 31, 2022.

### Risk Grades

Loans classified in the Pass category typically are fundamentally sound, and risk factors are reasonable and acceptable.

Loans classified in the Special Mention category typically have been criticized internally, by loan review or the loan officer, or by external regulators under the current credit policy regarding risk grades.

Loans classified in the Substandard category typically have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt; they are typically characterized by the possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Loans classified in the Doubtful category typically have all the weaknesses inherent in loans classified as substandard, plus the added characteristic the weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions, and values highly questionable and improbable. However, these loans are not yet rated as loss because certain events may occur that may salvage the debt.

The following table shows the Company's recorded investment in loans by credit quality indicators further disaggregated by year of origination as of December 31, 2023 (dollars in thousands):

Balance, end of year	\$	25,273	\$	19,555	\$	18,678

		Year Ended December 31,								
	2023			2022		2021				
Reserve for Unfunded Lending Commitments										
Balance, beginning of year	\$	377	\$	386	\$		304			
Day 1 impact of CECL adoption		305					-			
Provision for (recovery of) unfunded commitments		63		(9)			82			
Balance, end of year	\$	745	\$	377	\$		386			

The Company maintains an allowance for off-balance sheet credit exposures such as unfunded balances for existing lines of credit, commitments to extend future credit, as well as both standby and commercial letters of credit when there is a contractual obligation to extend credit and when this extension of credit is not unconditionally cancellable (i.e. commitment cannot be canceled at any time). The allowance for off-balance sheet credit exposures is adjusted through the provision for credit losses. The estimate includes consideration of the likelihood that funding will occur, which is based on a historical funding study derived from internal information, and an estimate of expected credit losses on commitments expected to be funded over its estimated life, which are the same loss rates that are used in computing the allowance for credit losses on loans, and are discussed in Note 1. The allowance for unfunded loan commitments is included in other liabilities on the Company's consolidated balance sheets.

The following table presents the Company's allowance for credit losses by portfolio segment at and for the year ended December 31,2023 (dollars in thousands):

	Co	ommercial	an	struction d Land elopment	Commercial Real Estate - Owner Occupied		Commercial Real Estate - Non-owner Occupied		Residential Real Estate		Home Equity		C	Consumer	Total

(1) Includes PPP loans, which are guaranteed by the SBA and have no related allowance.

The allowance for credit losses - loans is allocated to loan segments based upon historical default and loss experience, prepayment estimates, risk grades on individual loans, and qualitative factors. Qualitative factors include effects of changes in risk selection, underwriting standards, and lending policies; expected economic conditions throughout a reasonable and supportable forecast period; experience of lending staff; quality of loan review system; and changes in the regulatory, legal, and competitive environment.

The provision expense recorded of \$433 thousand for the year ended December 31,2023 was necessitated by loan growth. For the year ended December 31,2022, the Company recorded a provision expense of \$1.6 million necessitated by loan growth. Management will continue to evaluate the adequacy of the Company's allowance for credit losses as more economic data becomes available and as changes within the Company's loan portfolio are known. Changes in economic conditions may require further changes in the level of allowance.

### Note 6 – Premises and Equipment

Major classifications of premises and equipment at December 31, 2023 and 2022 are summarized as follows (dollars in thousands):

		Decem	ber 31,	
		2023		2022
Land	\$	8,859	\$	9,308
Buildings		32,538		32,515
Leasehold improvements		1,615		1,536
Furniture and equipment		17,216		19,379
•••		60,228		62,738
Accumulated depreciation		(28,419)		(29,838)
Premises and equipment, net	<u>\$</u>	31,809	\$	32,900

Depreciation expense was \$2.1 million for the year ended December 31, 2023 and \$2.2 million in 2022 and 2021.

### Note 7 – Goodwill and Other Intangible Assets

The Company records as goodwill the fair value of the consideration transferred, plus the fair value of any noncontrolling interests in the acquiree, over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Impairment testing is performed annually, as well as when an event triggering impairment may have occurred. In testing goodwill for impairment, the Company must first decide if circumstances lead to a determination that it is not more likely than not that the fair value of a reporting unit is less than its carrying value. If, after assessing, it concludes that it is not more likely than not that the fair value of a reporting unit is greater than its carrying value, then no further testing is required and the goodwill is not impaired. The Company performed its annual analysis for the years ended December 31, 2023 and 2022, respectively, and no indications of impairment were noted.

Core deposit intangibles resulting from the MainStreet Bankshares, Inc. acquisition in January 2015 were \$1.8 million and are being amortized on an accelerated basis over 120 months. Core deposit intangibles resulting from the acquisition of HomeTown Bankshares Corporation ("Hometown") in April 2019 were \$8.2 million and are being amortized on an accelerated basis over 120 months.

The changes in the carrying amount of goodwill and intangibles for the twelve months ended December 31,2023, are as follows (dollars in thousands):

	 Goodwill	 Intangibles
Balance at December 31, 2022	\$ 85,048	\$ 3,367
Amortization	 —	 (1,069)
Balance at December 31, 2023	\$ 85,048	\$ 2,298

Goodwill and intangible assets at December 31,2023 and 2022 were as follows (dollars in thousands):

	Gro	oss Carrying Value	Accumulated Amortization			Net Carrying Value
December 31, 2023						
Core deposit intangibles	\$	19,708	\$	(17,410)	\$	2,298
Goodwill		85,048				85,048
December 31, 2022						
Core deposit intangibles	\$	19,708	\$	(16,341)	\$	3,367
Goodwill		85,048				85,048

Amortization expense of core deposit intangibles for the years ended December 31,2023, 2022, and 2021 was \$1.1 million, \$1.3 million, and \$1.5 million, respectively. As of December 31, 2023, the estimated future amortization expense of core deposit intangibles is as follows (dollars in thousands):

Year	Amoun	t
2024 2025	\$	800
2025		617
2026 2027		454
2027		291
2028		136
Total	\$	2,298

## Note 8 – Leases

The right-of-use assets and lease liabilities relate to banking offices and other space occupied by the Company under noncancelable operating lease agreements. The aggregate right-of-use assets and lease liabilities are included in other assets and other liabilities, respectively, in the Company's consolidated balance sheets. Lease liabilities represent the Company's obligation to make lease payments and are presented at each reporting date as the net present value of the remaining contractual cash flows. Cash flows are discounted at the Company's incremental borrowing rate in effect at the commencement date of the lease. Right-of-use assets represent the Company's right to use the underlying asset for the lease term and are calculated as the sum of the lease liability and if applicable, prepaid rent, initial direct costs and any incentives received from the lessor.

The Company's long-term lease agreements are classified as operating leases. Certain of these leases offer the option to extend the lease term, and the Company has included such extensions in its calculation of the lease liabilities to the extent the options are reasonably certain of being exercised. The lease agreements do not provide for residual value guarantees and have no restrictions or covenants that would impact dividends or require incurring additional financial obligations.

The following tables present information about the Company's leases as of December 31,2023 and 2022 and for the years ended December 31,2023, 2022, and 2021 (dollars in thousands):

		Deceml	ber 31, 2023	December 31, 2022		
Lease liabilities		\$	6,541	\$	3,318	
Right-of-use assets		\$	6,460	\$	3,245	
Weighted average remaining lease term (in years)			7.49		6.77	
Weighted average discount rate			4.12%		3.16%	
Lease cost	 ar Ended ber 31, 2023		ar Ended ber 31, 2022		ear Ended aber 31, 2021	
Operating lease cost	\$ 1,255	\$	1,072	\$	1,069	
Short-term lease cost						
Total lease cost	\$ 1,255	\$	1,072	\$	1,069	

A maturity analysis of operating lease liabilities and reconciliation of the undiscounted cash flows to the total of operating lease liabilities is as follows (dollars in thousands):

Lease payments due	As of Decem	ber 31, 2023
2024	\$	1,204
2025		1,182
2026		964
2027		913
2028		831
2029 and after		2,547
Total undiscounted cash flows	\$	7,641
Discount		(1,100)
Lease liabilities	\$	6,541

Lease expense, a component of occupancy and equipment expense, for the years ended December 31,2023 totaled \$1.4 million and \$1.2 million for the years ended December 31, 2022 and 2021. The amounts recognized in lease expense include insurance, property taxes, and common area maintenance.

### Table of Contents

### Note 9 - Deposits

The aggregate amount of time deposits in denominations of \$250,000 or more at December 31,2023 and 2022 was \$138.5 million and \$89.8 million, respectively.

At December 31, 2023, the scheduled maturities and amounts of certificates of deposits (included in interest-bearing deposits on the consolidated balance sheets) were as follows (dollars in thousands):

Year	An	nount
2024	\$	325,529
2025		17,422
2026		13,010
2027		6,736
2028		5,102
2029 and after		4,267
Total	\$	372,066

There were no brokered time deposits at December 31,2023 or December 31, 2022.

### Note 10 - Short-term Borrowings

Short-term borrowings consist of customer repurchase agreements, overnight borrowings from the FHLB, and federal funds purchased. The Company has federal funds lines of credit established with correspondent banks in the amount of \$110 million and has access to the Federal Reserve Bank of Richmond's discount window. The Company has \$215.5 million in collateral pledged to the Federal reserve discount window. Customer repurchase agreements are collateralized by securities of the U.S. Government, its agencies or GSEs. They mature daily. The interest rates are generally fixed but may be changed at the discretion of the Company. The securities underlying these agreements remain under the Company's control. FHLB overnight borrowings contain floating interest rates that may change daily at the discretion of the FHLB. Short-term borrowings consisted solely of the following at December 31, 2023 and 2022 (dollars in thousands):

	December 31, 2023				December	31, 2022	
			Weighted			Weighted	
	A	mount	Average Rate		Amount	Average Rate	
Customer repurchase agreements	\$	59,348	4.75%	\$	370	0.10%	
FHLB borrowings		35,000	5.57		100,531	4.42	
Total short-term borrowings	\$	94,348	5.05%	\$	100,901	4.40%	

#### Note 11 - Long-term Borrowings

Under the terms of its collateral agreement with the FHLB, the Company provides a blanket lien covering all of its residential first mortgage loans, second mortgage loans, home equity lines of credit, and commercial real estate loans. In addition, the Company pledges as collateral its capital stock in the FHLB and deposits with the FHLB. The Company has a line of credit with the FHLB equal to 30% of the Company's assets, subject to the amount of collateral pledged. As of December 31, 2023, \$1.1 billion in eligible collateral was pledged under the blanket floating lien agreement which covers both short-term and long-term borrowings. FHLB availability based on pledged collateral at December 31, 2023 was \$408.3 million, with \$245.0 million remaining collateral eligible to be pledged.

In the regular course of conducting its business, the Company takes deposits from political subdivisions of the states of Virginia and North Carolina. At December 31, 2023, the Bank's public deposits totaled \$283.8 million. The Company is required to provide collateral to secure the deposits that exceed the insurance coverage provided by the FDIC. This collateral can be provided in the form of certain types of government or agency bonds or letters of credit from the FHLB. At December 31, 2023, the Company had \$210.0 million in letters of credit with the FHLB outstanding as well as \$132.3 million in agency, state, and municipal securities to provide collateral for such deposits.

#### Junior Subordinated Debt

On April 7, 2006, AMNB Statutory Trust I, a Delaware statutory trust and a wholly owned subsidiary of the Company, issued \$20 million of preferred securities (the "Trust Preferred Securities") in a private placement pursuant to an applicable exemption from registration. The Trust Preferred Securities mature on June 30, 2036, but may be redeemed at the Company's option beginning on September 30, 2011. Initially, the securities required quarterly distributions by the trust to the holder of the Trust Preferred Securities at a fixed rate of 6.66%. Effective September 30, 2011, the rate resets quarterly at the three-month LIBOR plus 1.35%. Effective July 2023, the rate resets quarterly at the three-month SOFR plus 1.35%. Distributions are cumulative and accrue from the date of original issuance but may be deferred by the Company fine to time for up to 20 consecutive quarterly periods. The Company has guaranteed the payment of all required distributions on the Trust Preferred Securities. The proceeds of the Trust Preferred Securities received by the trust, along with proceeds of \$619 thousand received by the trust from the issuance of common securities by the trust to the Company, were used to purchase \$20.6 million of the Company's junior subordinated debt securities (the "Trust Preferred Capital Notes"), issued pursuant to a junior subordinated debenture entered into between the Company and Wilmington Trust Company, as trustee.

The Company also has outstanding \$8.8 million in junior subordinated debentures to MidCarolina Trust I and MidCarolina Trust II, two separate unconsolidated Delaware statutory trusts (the "MidCarolina Trusts"), to fully and unconditionally guarantee the preferred securities issued by the MidCarolina Trusts. These long-term obligations, which currently qualify as Tier 1 capital, constitute a full and unconditional guarantee by the Company of the MidCarolina Trusts' obligations. The MidCarolina Trusts are not consolidated in the Company's financial statements.

In accordance with ASC 810-10-15-14, Consolidation - Overall - Scope and Scope Exceptions, the Company did not eliminate through consolidation the Company's \$619 thousand equity investment in AMNB Statutory Trust I or the \$264 thousand equity investment in the MidCarolina Trusts. Instead, the Company reflected these equity investments in other assets in the Company's consolidated balance sheets.

A description of the junior subordinated debt securities outstanding payable to the trusts is shown below (dollars in thousands):

				Principal As of Dec	
Issuing Entity	Date Issued	Interest Rate	Maturity Date	 2023	 2022
AMNB Trust I	4/7/2006	SOFR plus 1.35%	6/30/2036	\$ 20,619	\$ 20,619
MidCarolina Trust I	10/29/2002	SOFR plus 3.45%	11/7/2032	4,657	4,601
MidCarolina Trust II	12/3/2003	SOFR plus 2.95%	10/7/2033	3,159	3,114
		*		\$ 28,435	\$ 28,334

The principal amounts reflected above for the MidCarolina Trusts are net of fair value adjustments of \$498 thousand and \$449 thousand at December 31,2023 and \$554 thousand and \$495 thousand at December 31, 2022, respectively. The original fair value adjustments of \$1.2 million and \$1.0 million were recorded as a result of the acquisition of MidCarolina on July 1, 2011, and are being amortized into interest expense over the remaining lives of the respective borrowings.

### Note 12 - Derivative Financial Instruments and Hedging Activities

The Company uses derivative financial instruments ("derivatives") primarily to manage risks associated with changing interest rates. The Company's derivatives were hedging instruments in a qualifying hedge accounting relationship (cash flow or fair value hedge).

The Company designates derivatives as cash flow hedges when they are used to manage exposure to variability in cash flows on variable rate borrowings such as the Company's Trust Preferred Capital Notes. The Company uses interest rate swap agreements as part of its hedging strategy by exchanging variable-rate interest payments on a notional amount equal to the principal amount of the borrowings for fixed-rate interest payments, with such interest rates set based on benchmarked interest rates.

All interest rate swaps were entered into with counterparties that met the Company's credit standards and the agreements contain collateral provisions protecting the atrisk party. The Company believes that the credit risk inherent in these derivative contracts was not significant.

Terms and conditions of the interest rate swaps vary and amounts receivable or payable are recognized as accrued under the terms of the agreements. The Company assesses the effectiveness of each hedging relationship on a periodic basis. In accordance with ASC 815, *Derivatives and Hedging*, the effective portions of the derivatives' unrealized gains or losses are recorded as a component of other comprehensive income. Based on the Company's assessment, its cash flow hedges are highly effective, but to the extent that any ineffectiveness exists in the hedge relationships, the amounts would be recorded in the Company's consolidated statements of income.

#### Table of Contents

The Company terminated the swap agreements on October 16, 2023, earlier than their maturity of June 2028. Net proceeds from the termination was \$2.0 million for settlement of deferred gains and interest and \$850 thousand cash collateral returned. The other comprehensive income component remained on the balance sheet and will accrete from the time of execution to the end of the hedge term since the swaps were terminated early.

(Dollars in thousands)	December 31, 2022										
	Notional A	mount		Positions			Assets		Liabilities	Cash Colla Pledge	
Cash flow hedges:											
Interest rate swaps:											
Variable-rate to fixed-rate swaps with counterparty	\$	28,500	\$		3	\$	1,325	\$		 \$	850

In addition, the Company has commitments to fund certain mortgage loans (interest rate lock commitments) to be sold into the secondary market and forward commitments for the future delivery of mortgage loans to third party investors which are considered derivatives. It is the Company's practice to enter into forward commitments for the future delivery of residential mortgage loans when interest rate lock commitments are entered into in order to economically hedge the effect of change in interest rates resulting from its commitments to fund the loans. These mortgage banking derivatives are not designated in hedge relationships.

#### Note 13 - Stock-Based Compensation

The Company's 2018 Stock Incentive Plan (the "2018 Plan") provides for the granting of restricted stock awards, incentive and non-statutory options, and other equitybased awards to employees and directors at the discretion of the Compensation Committee of the Board of Directors. The 2018 Plan authorizes the issuance of up to 675,000 shares of common stock.

#### Stock Options

Accounting guidance requires that compensation cost relating to share-based payment transactions be recognized in the financial statements with measurement based upon the fair value of the equity or liability instruments issued. During the year ended December 31, 2023, 4,150 stock options were exercised at the granted price of \$16.63. The Company had no outstanding stock option awards at December 31, 2023. There was no recognized or unrecognized stock compensation expense attributable to outstanding stock options at December 31, 2023. No stock options were granted in2023, 2022, and 2021.

The total proceeds of the in-the-money options exercised during the years ended December 31,2023, 2022, and 2021 were \$69 thousand, \$12 thousand, and \$89 thousand, respectively. Total intrinsic value (the amount by which the current fair value of the underlying stock exceeds the exercise price) of options exercised during the years ended December 31, 2023, 2022, and 2021 was \$0, \$16 thousand, and \$96 thousand, respectively.

#### Restricted Stock

The Company from time-to-time grants shares of restricted stock to key employees and non-employee directors. These awards help align the interests of these employees and directors with the interests of the shareholders of the Company by providing economic value directly related to increases in the value of the Company's common stock. The value of the stock awarded is established as the fair market value of the stock at the time of the grant. The Company recognizes expense, equal to the total value of such awards, ratably over the vesting period of the stock grants. All restricted stock grants cliff vest at the end of a 36-month period beginning on the date of grant. Nonvested restricted stock activity for the year ended December 31, 2023 is summarized in the following table:

	Shares	Weighted Average Grant Date Value Per Share
Nonvested at December 31, 2022	71,707	\$ 33.39
Granted	32,554	35.78
Vested	(19,805)	33.73
Forfeited	(1,878)	34.16
Nonvested at December 31, 2023	82,578	34.21

As of December 31, 2023, 2022, and 2021, there was \$1.2 million, \$1.1 million, and \$782 thousand, respectively, in unrecognized compensation cost related to nonvested restricted stock granted under the 2018 Plan. This cost is expected to be recognized over the next 12 to 36 months. The share-based compensation expense for nonvested restricted stock was \$1.1 million, \$889 thousand, and \$749 thousand during 2023, 2022, and 2021, respectively.

## Note 14 – Income Taxes

The Company files income tax returns in the U.S. federal jurisdiction and the states of Virginia and North Carolina. With few exceptions, the Company is no longer subject to U.S. federal, state, and local income tax examinations by tax authorities for years prior to 2020.

The components of the Company's net deferred tax assets were as follows (dollars in thousands):

		December 31,				
	202	23	2022			
Deferred tax assets:						
Allowance for credit losses	\$	5,476 \$	4,226			
Nonaccrual loan interest		222	229			
Other real estate owned valuation allowance		—	12			
Deferred compensation		1,182	1,277			
Acquisition accounting		732	1,174			
Lease liability, net of right of use asset		18	16			
Accrued pension liability		108	86			
Net unrealized loss on cash flow hedges		387	—			
Net unrealized loss on securities available for sale		12,161	15,339			
Other		535	374			
Total deferred tax assets		20,821	22,733			
Deferred tax liabilities:						
Depreciation		979	1,044			
Core deposit intangibles		498	728			
Deferred loan origination costs, net		55	42			
Net unrealized gain on cash flow hedges		—	278			
Prepaid merger expenses		1,240	—			
Other		185	179			
Total deferred tax liabilities		2,957	2,271			
Net deferred tax assets	<u>\$</u>	17,864 \$	20,462			

The provision for income taxes consists of the following (dollars in thousands):

	Year Ended December 31,								
		2023		2022		2021			
Current tax expense	\$	6,941	\$	9,319	\$	10,905			
Deferred tax expense (benefit)		1,273		(385)		808			
Total income tax expense	\$	8,214	\$	8,934	\$	11,713			

A reconcilement of the "expected" federal income tax expense to reported income tax expense is as follows (dollars in thousands):

	Year Ended December 31,								
		2023		2022		2021			
Expected federal tax expense	\$	7,218	\$	9,106	\$	11,600			
Nondeductible merger related expense		313		_					
Nondeductible interest expense		75		10		8			
Tax-exempt interest		(186)		(202)		(198)			
State income taxes		261		308		326			
Other, net		533		(288)		(23)			
Total income tax expense	\$	8,214	\$	8,934	\$	11,713			

### Note 15 – Earnings Per Common Share

The following shows the weighted average number of shares used in computing earnings per common share and the effect on the weighted average number of shares of potentially dilutive common stock. Potentially dilutive common stock had no effect on income available to common shareholders. Nonvested restricted shares are included in the computation of basic earnings per share as the holder is entitled to full shareholder benefits during the vesting period including voting rights and sharing in nonforfeitable dividends.

				Year Ended D	ecen	nber 31,				
	2023				22		202	2021		
			Per Share			Per Share			Per Share	
	Shares		Amount	Shares		Amount	Shares		Amount	
Basic earnings per share	10,627,709	\$	2.46	10,672,314	\$	3.23	10,873,817	\$	4.00	
Effect of dilutive securities - stock options	850		_	2,299			3,414		_	
Diluted earnings per share	10,628,559	\$	2.46	10,674,613	\$	3.23	10,877,231	\$	4.00	

There were no outstanding stock options that were excluded from the calculation of diluted earnings per share because their effects were anti-dilutive in2023, 2022, and 2021.

#### Note 16 – Off-Balance Sheet Activities

The Company is party to credit-related financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Such commitments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if applicable, is based on management's credit evaluation of the customer.

The Company's exposure to credit loss is represented by the contractual amount of these commitments. The Company follows the same credit policies in making commitments as it does for on-balance sheet instruments.

The following off-balance sheet financial instruments whose contract amounts represent credit risk were outstanding at December 31,2023 and 2022 (dollars in thousands):

	D	December 31,				
	2023		2022			
Commitments to extend credit	\$ 614	705 \$	635,851			
Standby letters of credit		228	12,897			
Mortgage loan rate lock commitments	1	822	1,920			

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. These commitments generally consist of unused portions of lines of credit issued to customers. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Those letters of credit are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

At December 31, 2023, the Company had locked-rate commitments to originate mortgage loans amounting to approximately \$1.8 million and loans held for sale of \$1.3 million. Risks arise from the possible inability of counterparties to meet the terms of their contracts, though the Company has never experienced a failure of one of its counterparties to perform. If a loan becomes past due 90 days within 180 days of sale, the Company would be required to repurchase the loan.

#### Note 17 – Related Party Transactions

In the ordinary course of business, loans are granted to executive officers, directors, and their related entities. Management believes that all such loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans to similar, unrelated borrowers, and do not involve more than a normal risk of collectability or present other unfavorable features. As of December 31, 2023 and 2022, none of these loans was restructured, past due, or on nonaccrual status.

An analysis of these loans for 2023 is as follows (dollars in thousands):

Balance at December 31, 2022	\$ 24,476
Additions	7,332
Repayments	(4,372)
Reclassifications(1)	 9,494
Balance at December 31, 2023	\$ 36,930

(1) Reclassifications consist of loans for two Board of Directors who joined the Company in May 2023.

Related party deposits totaled \$10.6 million at December 31, 2023 and \$9.5 million at December 31, 2022.

## Note 18 – Employee Benefit Plans

## Defined Benefit Plan

The Company previously maintained a non-contributory defined benefit pension plan which covered substantially all employees who were 21 years of age or older and who had at least one year of service. The Company froze its pension plan to new participants and converted its pension plan to a cash balance plan effective December 31, 2009. Each year, existing participants will receive, with some adjustments, income based on the yield of the 10 year U.S. Treasury Note in December of the preceding year. The Plan notified participants of the intent to apply for Internal Revenue Service approval to terminate the Pension Plan. Final determination can take 12-24 months for the projected benefit payments. Total projected payments of \$3.5 million are estimated to be disbursed in 2024. Information pertaining to the activity in the plan is as follows (dollars in thousands):

The accumulated benefit obligation as of December 31, 2023, 2022, and 2021 was \$3.5 million, \$3.3 million, and \$5.0 million, respectively. The rate of compensation increase is no longer applicable since the defined benefit plan was frozen and converted to a cash balance plan.

The plan sponsor selected the expected long-term rate-of-return-on-assets assumption in consultation with their investment advisors and actuary. This rate was intended to reflect the average rate of earnings expected to be earned on the funds invested or to be invested to provide plan benefits. Historical performance is reviewed, especially with respect to real rates of return (net of inflation), for the major asset classes held or anticipated to be held by the trust, and for the trust itself. Undue weight is not given to recent experience that may not continue over the measurement period, with higher significance placed on current forecasts of future long-term economic conditions.

Because assets are held in a qualified trust, anticipated returns are not reduced for taxes. Further, solely for this purpose, the plan is assumed to continue in force and not terminate during the period in which assets are invested. However, consideration is given to the potential impact of current and future investment policy, cash flow into and out of the trust, and expenses (both investment and non-investment) typically paid from plan assets (to the extent such expenses are not explicitly estimated within periodic cost).

Below is a description of the plan's assets. The plan's weighted-average asset allocations by asset category are as follows as of December 31, 2023 and 2022:

Asset Category	December 31,			
	2023	2022		
Fixed Income	54.4%	71.4%		
Cash and Accrued Income	45.6%	28.6%		
Total	100.0%	100.0%		

The investment policy and strategy for plan assets can best be described as a growth and income strategy. Diversification is accomplished by limiting the holding of any one equity issuer to no more than 5% of total equities. Exchange traded funds are used to provide diversified exposure to the small capitalization and international equity markets. All fixed income investments are rated as investment grade, with the majority of these assets invested in corporate issues. The assets are managed by the Company's Trust and Investment Services Division. No derivatives are used to manage the assets. Equity securities do not include holdings in the Company.

The fair value of the Company's pension plan assets at December 31,2023 and 2022, by asset category are as follows (dollars in thousands):

### 401(k) Plan

The Company maintains a 401(k) plan that covers substantially all full-time employees of the Company. The Company matches a portion of the contribution made by employee participants after at least one year of service. The Company contributed \$1.4 million, \$1.2 million, and \$1.1 million to the 401(k) plan in 2023, 2022, and 2021, respectively. These amounts are included in employee benefits expense for the respective years.

#### Deferred Compensation Arrangements

Prior to 2015, the Company maintained deferred compensation agreements with former employees providing for annual payments to each ranging from \$25,000 to \$50,000 per year for 10 years upon their retirement. The liabilities under these agreements were accrued over the officers' remaining periods of employment so that, on the date of their retirement, the then-present value of the annual payments had been accrued. As of December 31, 2023, the Company only had one remaining agreement under which payments are being made to a former officer. The liabilities were \$50 thousand and \$100 thousand at December 31, 2023 and 2022, respectively. There was no expense for this agreement for the years ended December 31, 2023, 2022, and 2021. As a result of acquisitions, the Company has various agreements with current and former employees and executives with balances of \$4.8 million and \$5.4 million at December 31, 2023, and 2022, respectively that accrue through eligibility and are payable upon retirement. The Company recognized income of \$143 thousand for the years ended December 31, 2023, due to the effect of rising interest rates on the actuarial liability. The Company recognized expenses of \$159 thousand and \$430 thousand for the years ended December 31, 2022 and 2021, respectively.

Certain named executive officers are eligible to participate in a voluntary, nonqualified deferred compensation plan pursuant to which the officers may defer any portion of their annual cash incentive payments. In addition, the Company may make discretionary cash bonus contributions to the deferred compensation plan. Such contributions, if any, are made on an annual basis after the Committee assesses the performance of each of the named executive officers and the Company during the most recently completed fiscal year. The contributions charged to salary expense were \$90 thousand, \$86 thousand and \$184 for the years ended December 31, 2023, 2022, and 2021, respectively.

### Incentive Arrangements

The Company maintains a cash incentive compensation plan for officers based on the Company's performance and individual officer goals. The total amount charged to salary expense for this plan was \$3.3 million, \$5.1 million, and \$3.1 million for the years ended December 31, 2023, 2022, and 2021, respectively.

#### Note 19 - Fair Value Measurements

## Determination of Fair Value

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. In accordance with the fair value measurements and disclosures topic of FASB ASC 825, *Financial Instruments*, the fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. The fair value guidance provides a consistent definition of fair value, which focuses on exit price in the principal or most advantageous market for the asset or liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value under current market

### Fair Value Hierarchy

In accordance with this guidance, the Company groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

- Level 1 Valuation is based on quoted prices in active markets for identical assets and liabilities.
- Level 2 Valuation is based on observable inputs including quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets and liabilities in less active markets, and model-based valuation techniques for which significant assumptions can be derived primarily from or corroborated by observable data in the market.

Level 3 – Valuation is based on model-based techniques that use one or more significant inputs or assumptions that are unobservable in the market.

### Table of Contents

The following describes the valuation techniques used by the Company to measure certain financial assets and liabilities recorded at fair value on a recurring basis in the financial statements:

Securities available for sale: Securities available for sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, when available (Level 1). If quoted market prices are not available, fair values are measured utilizing independent valuation techniques of identical or similar securities for which significant assumptions are derived primarily from or corroborated by observable market data. Third party vendors compile prices from various sources and may determine the fair value of identical or similar securities by using pricing models that consider observable market data (Level 2).

Loans held for sale: Loans held for sale are carried at fair value. These loans currently consist of residential loans originated for sale in the secondary market. Fair value is based on the price secondary markets are currently offering for similar loans using observable market data which is not materially different than cost due to the short duration between origination and sale (Level 2). Gains and losses on the sale of loans are recorded in current period earnings as a component of mortgage banking income on the Company's consolidated statements of income.

Derivative asset (liability) - cash flow hedges Cash flow hedges are recorded at fair value on a recurring basis. Cash flow hedges are valued by a third party using significant assumptions that are observable in the market and can be corroborated by market data. All of the Company's cash flow hedges are classified as Level 2.

The following table presents the balances of financial assets and liabilities measured at fair value on a recurring basis during the period (dollars in thousands):

Certain assets are measured at fair value on a nonrecurring basis in accordance with GAAP. Adjustments to the fair value of these assets usually result from the application of lower-of-cost-or-market accounting or write-downs of individual assets.

The following describes the valuation techniques used by the Company to measure certain assets recorded at fair value on a nonrecurring basis in the financial statements:

Other real estate owned: Measurement for fair values for other real estate owned are the same as impaired loans. Any fair value adjustments are recorded in the period incurred as a valuation allowance against OREO with the associated expense included in OREO expense, net on the consolidated statements of income.

There were no Company assets measured at fair value on a nonrecurring basis at December 31, 2023. The following table summarizes the Company's assets that were measured at fair value on a nonrecurring basis during the period ended December 31, 2022 (dollars in thousands):

FASB ASC 825, *Financial Instruments*, requires disclosure about fair value of financial instruments, including those financial assets and financial liabilities that are not required to be measured and reported at fair value on a recurring or nonrecurring basis. ASC 825 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company. The Company uses the exit price notion in calculating the fair values of financial instruments not measured at fair value on a recurring basis.

The carrying values and estimated fair values of the Company's financial instruments at December 31,2023 are as follows (dollars in thousands):

Fair Value Measurements at December 31, 2023 Using

### Note 20 – Dividend Restrictions and Regulatory Capital

The approval of the Office of the Comptroller of the Currency is required if the total of all dividends declared by a national bank in any calendar year exceeds the bank's retained net income, as defined, for that year combined with its retained net income for the preceding two calendar years. Under this formula, the Bank can distribute as dividends to the Company, without the approval of the Office of the Comptroller of the Currency, up to \$65.1 million as of December 31, 2023. Dividends paid by the Bank to the Company are the only significant source of funding for dividends paid by the Company to its shareholders.

Federal bank regulators have issued substantially similar guidelines requiring banks and bank holding companies to maintain capital at certain levels. In addition, regulators may from time to time require that a banking organization maintain capital above the minimum levels because of its financial condition or actual or anticipated growth. Failure to meet minimum capital requirements can trigger certain mandatory and discretionary actions by regulators that could have a direct material effect on the Company's financial condition and results of operations.

Management believes that as of December 31, 2023, the Company and Bank met all capital adequacy requirements to which they are subject. At year-end2023 and 2022, the most recent regulatory notifications categorized the Bank as "well capitalized" under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the Bank's category.

Actual and required capital amounts (in thousands) and ratios are presented below at year-end.

### Note 21 - Segment and Related Information

The Company has two reportable segments, community banking and wealth management.

Community banking involves making loans to and generating deposits from individuals and businesses. All assets and liabilities of the Company are allocated to community banking. Investment income from securities is also allocated to the community banking segment. Loan fee income, service charges from deposit accounts, and non-deposit fees such as automated teller machine fees and insurance commissions generate additional income for the community banking segment.

Wealth management includes estate planning, trust account administration, investment management, and retail brokerage. Investment management include purchasing equity, fixed income, and mutual fund investments for customer accounts. The wealth management segment receives fees for investment and administrative services.

Segment information as of and for the years ended December 31,2023, 2022, and 2021, is shown in the following table (dollars in thousands):

		2023

### UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

On April 1, 2024, Atlantic Union Bankshares Corporation ("Atlantic Union") completed its previously announced merger with American National Bankshares Inc. ("American National"), pursuant to the Agreement and Plan of Merger, dated as of July 24, 2023, by and between Atlantic Union and American National. At the effective time of the merger, American National merged with and into Atlantic Union, with Atlantic Union continuing as the surviving corporation. Immediately following the merger, American National Bank and Trust Company, American National's wholly owned subsidiary bank, merged with and into Atlantic Union Bank continuing as the surviving bank.

The following tables show the unaudited condensed combined financial information for each of Atlantic Union and American National, as well as unaudited pro forma condensed combined financial information for Atlantic Union and American National reflecting the merger as of and for the year ended December 31, 2023, and pro forma assumptions and adjustments described in the accompanying notes to the unaudited pro forma condensed combined financial statements.

The unaudited pro forma condensed combined financial information has been prepared using the acquisition method of accounting for business combinations under GAAP, with Atlantic Union as the acquirer for accounting purposes. Certain reclassifications have been made to the historical financial statements of American National to conform to the presentation in Atlantic Union's financial statements. The unaudited pro forma condensed combined balance sheet as of December 31, 2023 in the table below is presented as if the merger occurred on December 31, 2023, and the unaudited pro forma condensed combined statements of income for the year ended December 31, 2023 are presented as if the merger occurred on January 1, 2023.

The following unaudited pro forma condensed combined financial information and accompanying notes are based on and should be read together with:

- the accompanying notes to the unaudited pro forma condensed combined financial statements;
- Atlantic Union's historical audited financial statements and accompanying notes included in Atlantic Union's <u>Annual Report on Form 10-K for the year</u> ended December 31, 2023; and
- American National's historical audited financial statements and accompanying notes included in American National's <u>Annual Report on Form 10-K for</u> the year ended December 31, 2023.

The audited financial statements for American National are included as Exhibit 99.1 to the Current Report on Form 8-K/A on which this Exhibit 99.2 is filed.

The pro forma condensed combined financial information is presented for illustrative purposes only and does not necessarily indicate the financial results of the combined company had Atlantic Union and American National actually been combined as of the dates indicated and at the beginning of the period presented, nor does it necessarily indicate the results of operations in future periods of the future financial position of the combined entities, which could differ materially from those shown in this information. In addition to the depiction of the accounting for the transaction as required by Article 11 of Regulation S-X, which we refer to as transaction accounting adjustments, Regulation S-X also allows the presentation of management adjustments that could include the reasonably estimable synergies and other transaction effects that have occurred or are reasonably expected to occur. Atlantic Union has elected not to present any management adjustments. The unaudited pro forma condensed combined financial characteristics of the combined company under one set of assumptions, does not reflect the realization of potential cost savings, revenue synergies, changes in market conditions and asset dispositions, among other factors, and, accordingly, does not attempt to predict or suggest future results. The pro forma condensed combined statements of income do not include estimated merger and integration-related costs expected to be incurred in conjunction with the merger. See Note 4 accompanying the pro forma condensed combined financial information for additional information regarding merger and integration-related costs. In addition, as explained in more detail in the accompanying notes, the preliminary allocation of the pro forma purchase price reflected in the pro forma condensed combined financial information for the transaction that will be ultimately recorded as of the April 1, 2024 effective date of the merger (the "Effective Date").

Atlantic Union has not yet completed the valuation analysis and calculations at the level of detail required to obtain the necessary estimates of the fair market values of the American National assets to be acquired or liabilities to be assumed, other than a preliminary estimate for intangible assets and certain financial assets and liabilities. Therefore, certain American National assets and liabilities are presented at their respective carrying amounts and should be considered preliminary values. Final determination of the fair values of American National assets and liabilities will be obtained based on actual American National asset and liabilities as of the Effective Date.

Due to the preliminary estimates for the pro forma purchase price and valuation analysis as noted above, the pro forma adjustments presented are to be considered preliminary and subject to change as additional information becomes available. The preliminary pro forma adjustments have been presented solely for the purpose of providing the unaudited pro forma condensed combined financial information.

Any changes in the fair values of the net assets or total purchase price as compared with the information shown in the unaudited pro forma condensed combined financial information may change the amount of the total purchase consideration allocated to goodwill, deferred taxes, and other assets and liabilities, and may impact the combined company's statement of income.

See accompanying Notes to Unaudited Pro Forma Condensed Combined Financial Information.

### NOTES TO THE UNAUDITED PRO FORMA CONDENSESD COMBINED FINANCIAL INFORMATION

### Note 1 - Basis of Presentation

The unaudited pro forma condensed combined financial information and explanatory notes have been prepared to illustrate the effects of the merger under the acquisition method of accounting with Atlantic Union treated as the acquirer. The unaudited pro forma condensed combined financial information is presented for illustrative purposes only and does not necessarily indicate the financial results of the combined companies had the companies actually been combined at the beginning of each period presented, nor does it necessarily indicate the results of operations in future periods or the future financial position of the combined entities. Under the acquisition method of accounting, the assets and liabilities of American National, as of the Effective Date, will be recorded by Atlantic Union at their respective fair values and the excess of the merger consideration over the fair value of American National's net assets will be allocated to goodwill.

The merger, which closed on April 1, 2024, provides that American National shareholders will receive 1.35 shares of Atlantic Union common stock, valuing the transaction at approximately \$506.9 million, or \$47.67 per share, based on the closing share price of Atlantic Union common stock on the NYSE on March 28, 2024.

### Note 2 - Pro Forma Adjustments

The following pro forma adjustments have been reflected in the unaudited pro forma condensed combined financial information. All adjustments are preliminary and are based on current valuations, estimates, and assumptions, which are subject to change. Atlantic Union has engaged an independent third-party valuation firm to determine the fair value of the assets acquired and liabilities assumed, which could significantly change the amount of the estimated fair values used in the pro forma financial information presented.

(a) Adjustments to American National's outstanding loans held for investment, net of deferred fees and costs, reflect estimated fair value adjustments consisting of (i) adjustments for credit deterioration in the acquired loan portfolio, including adjustments on acquired loans that have not experienced more-than-insignificant deterioration in credit quality since origination, or non-PCD loans, and adjustments on acquired loans that have experienced more-than-insignificant deterioration in credit quality since origination, or PCD loans, (ii) an interest rate mark based on current market interest rates and spreads including the consideration of liquidity concerns, and (iii) a gross up of PCD loans, each as reflected in the following table:

(Dollars in thousands)	December 31, 2023
Credit mark - acquired non-PCD loans	\$ (21,050)
Credit mark - acquired PCD loans	(4,300)
Interest rate mark - acquired loans	(119,702)
Net fair value adjustments	(145,052)
Gross up of PCD loans	4,300
Cumulative pro forma adjustments to loans held for investment, net of deferred fees and costs	<u>\$ (140,752</u> )

(b) Adjustments to American National's allowance for credit losses, or ACL, that consist of (i) an adjustment to reverse its existing ACL, as loans acquired in a business combination are recorded at fair value and the recorded ACL of the acquired company is not carried over, (ii) the credit mark on acquired PCD loans, which under the current expected credit losses, or CECL, framework, is reflected as a gross up to both loans and ACL and is subject to change at closing of the merger, and (iii) an additional allowance for non-PCD loans under CECL of \$19.7 million with a deferred tax adjustment of \$4.1 million, resulting in a net impact to retained earnings of \$15.6 million, which will be recognized through the income statement of the combined company, each as reflected in the following table:

(Dollars in thousands)	Decem	nber 31, 2023
Reversal of American National's existing ACL		
	\$	(25,273)
Estimate of lifetime credit losses for PCD loans		4,300
CECL ACL for non-PCD loans		19,720
Cumulative pro forma adjustment to allowance for credit losses	\$	(1,253)

- (c) Adjustment to reflect the estimated fair value of American National's premises and equipment.
- (d) An adjustment to eliminate American National's legacy goodwill of \$85.0 million, and to record estimated goodwill of \$255.1 million related to the merger, based on the preliminary pro forma allocation of purchase price as shown in Note 3 below.
- (e) Adjustment to record an estimated core deposit intangible asset of \$87.2 million and a customer relationship intangible asset of \$7.5 million and to eliminate American National's previously reported other amortizable intangible assets of \$2.3 million. The core deposit intangible asset and customer relationship intangible asset is expected to be amortized over 120 and 156 months, respectively, using the sum-of-years digits method. The estimate of the core deposit intangible asset represents a 3.75% premium on American National's core deposits based on current market data for similar transactions.
- (f) Adjustment to record deferred federal income taxes to reflect the effects of the acquisition accounting adjustments based on Atlantic Union's federal income statutory tax rate of 21%.
- (g) Adjustment to reflect the estimated fair value of American National's time deposits based on current market interest rates for similar instruments.
- (h) Adjustment to reflect the estimated fair value of American National's trust preferred capital notes at current market rates and spreads for similar instruments.
- (i) Adjustment reflects estimated accrual of contractually obligated transaction costs related to the merger.
- (j) Adjustment to eliminate American National's shareholders' equity and record the issuance of shares of Atlantic Union common stock on the conversion of all of the outstanding shares of American National common stock into shares of Atlantic Union common stock based on the exchange ratio.
- (k) Adjustment to record the equity to be issued as merger consideration. The adjustment to surplus represents the amount of equity consideration above the \$1.33 par value of Atlantic Union common stock issuable in the merger.
- (1) Adjustment represents the estimated net discount accretion on acquired loans. Discount expected to be accreted over four years using the sum-of-years digits method.
- (m) Adjustment represents the estimated net discount accretion on American National's available for sale securities mark-to-market discount. Discount on such available for sale securities is expected to be accreted over six years using the sum-of-years digits method.

- (n) Adjustment represents the estimated net discount amortization on American National's trust preferred capital notes to be assumed in the merger. Discount on such trust preferred capital notes is expected to be accreted over 12 years using the straight-line method.
- (o) Adjustment represents the estimated loss of pre-tax income resulting from application of the Durbin amendment to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 following the merger.
- (p) Adjustment represents amortization of core deposit intangible asset and customer relationship intangible asset premiums, which is expected to be amortized over 120 and 156 months, respectively, using the sum-of-years digits method. Also includes elimination of amortization previously recorded by American National in connection with previous acquisitions.
- (q) Adjustment represents the estimated premium amortization on American National's premises. Such premium is expected to be amortized over 30 years using the straight-line method.
- (r) Adjustment to federal income tax expense to record the federal income tax effects of pro forma adjustments using a federal corporate income tax rate of 21%.
- (s) Adjustments to weighted average basic and diluted shares of Atlantic Union common stock outstanding to eliminate weighted average basic and diluted shares of American National common stock outstanding and to record shares of Atlantic Union common stock to be issued in the merger, calculated using the exchange ratio.
- (t) Adjustment for the reclassification of American National's interchange network fees recorded in other expenses to noninterest income, to align with the presentation of Atlantic Union's income statements.

### Note 3 - Preliminary Pro Forma Allocation of Purchase Price

The preliminary pro forma allocation of the purchase price reflected in the pro forma condensed combined financial information is subject to adjustment and may vary from the actual purchase price allocation that will ultimately be recorded as of the Effective Date. Adjustments may include, but not be limited to, changes in (a) American National's balance sheet and operating results through the Effective Date; (b) total merger-related expenses if consummation and/or implementation costs vary from currently estimated amounts; and (c) the underlying values of assets and liabilities if market and credit conditions differ from current assumptions.

The pro forma adjustments include the estimated purchase accounting entries to record the merger transaction. The excess of the purchase price over the fair value of net assets acquired, net of deferred taxes, is allocated to goodwill. Estimated fair value adjustments included in the pro forma condensed combined financial information are based upon available information and certain assumptions considered reasonable, and may be revised as additional information becomes available.

The following table shows the preliminary pro forma allocation of the preliminary consideration paid in the merger for American National's common stock, based on the closing share price of Atlantic Union common stock of \$35.31 on the NYSE on March 28, 2024, the last trading day before the Effective Date, to the acquired identifiable assets and liabilities assumed and the pro forma goodwill generated from the merger:

Purchase price:		
Fair value of shares of Atlantic Union common stock issued		\$ 506,879
Total pro forma purchase price		\$ 506,879
Fair value of assets acquired:		
Cash and cash equivalents	\$ 66,719	
Securities	532,133	
Loans held for sale	1,279	
Net loans held for investment	2,143,268	
Premises and equipment	40,185	
Amortizable intangibles	94,692	
Other assets	 110,697	
Total assets	2,988,973	
air value of liabilities assumed:		
Deposits	2,598,333	
Short-term borrowings	94,348	
Long-term borrowings	22,879	
Other liabilities	21,643	
Total liabilities	\$ 2,737,203	
Net assets acquired		\$ 251,770
Preliminary pro forma goodwill		\$ 255,109

## Note 4 — Merger- and Integration-Related Costs

Merger- and integration-related costs are not included in the proforma condensed combined statement of income since they will be recorded in the combined results of income as they are incurred prior to, or after completion of, the merger and are not indicative of what the historical results of the combined company would have been had the companies been actually combined during the periods presented.
